### Detailed guidance for submitting drafting suggestions and comments

To download the table for comments from Delegates Portal in Word format, please click on "Download ZIP" as indicated in the screenshot below, then open the .zip folder and open the template for comments.

You are kindly invited to use this table to send us your comments. After filling it in, please send the table back as a Word document.

You are encouraged to provide your comments in English. If the table is completed in another language, we would be very grateful if you could provide a courtesy translation in English.

Please note the following important rules when completing the table:

- Please do not delete any rows or columns from the table;
- Please do not insert any new rows or columns, even if you intend to propose a new article (e.g. to add two new articles after existing Article 1, please add both of them in the "*Drafting suggestions*" under Article 1);
- Column 1 ("*Commission proposal*") is for information and should remain unchanged;
- Add your drafting suggestions in column 3 ("*Drafting suggestions*"). Please copy the Commission's proposed text and make the changes visible (in bold/strikethrough or other equivalent manner). Please avoid track changes as they would compromise the readability of the document;
- If the proposed changes concern only a specific part of an article/recital (e.g. an individual letter/indent), please do not copy the full article but only the concerned part;
- Add your comments related to the specific part of the text and/or your suggested changes in column 2 ("*Comments*").

## REGULATION ON THE FINANCING, MANAGEMENT AND MONITORING OF THE CAP

*When proposing a drafting suggestion, please copy the Commission's proposed text and make the changes visible (in bold/strikethrough or other equivalent manner).*

*If the proposed changes concern only a specific part of an article/recital (e.g. an individual letter/indent), please do not copy the full article but only the concerned part.*

*Please always provide a rationale for drafting suggestions in the "Comments" column.*
