### WORKING PAPER

*This is a paper intended for a specific community of recipients. Handling and further distribution are under the sole responsibility of community members.*

### WORKING DOCUMENT

From:	General Secretariat of the Council
To:	Working Party on Aviation
Subject:	Amended proposal for a Regulation of the European Parliament and the Council on the implementation of the Single European Sky (recast) - Comments from Member States on the outcome of technical meetings with the EP for Chapter III

Delegations will find, in the annex, comments from **DENMARK** on the above mentioned subject.

Article 6: provision of services by air navigation service providers, lines 117-129

Lines 118-129 on the Single Certificate:

In order for Denmark to support the compromise proposal regarding the EP's acceptance of a single certificate, it would require that the EP accept that the NSA and the NCA can exist within the same entity (article 3, line 72). Furthermore, we find that there is a need for further elaboration from the EP regarding their third requirement: *"that the NSA is liable for wrong assessment of economic requirements."*

As a general comment, we can support the Presidency's suggested compromise proposals for the rest of article 6, but our full support would require that the NSA and the NCA could exist within the same entity.
