WORKING DOCUMENT

From:	General Secretariat of the Council
To:	Working Party on Transport - Intermodal Questions and Networks
N° prev. doc.:	WK 11708 2025
N° Cion doc.:	ST 11821 2023 INIT + ADD 1 - ADD 4
Subject:	Proposal for a Regulation of the European Parliament and of the Council on the accounting of greenhouse gas emissions of transport services – 4-colum document post 6th ITM

Following the 6th ITM held on 29 September and in the view of the Working Party on Transport - Intermodal Questions and Networks of 30 September 2025, the Presidency and the negotiation team of the European Parliament reached a common ground on the attached 4-colum document. This document has been consolidated under the caveat that nothing is agreed until everything is agreed and subject to endorsement at political level from both the Council and the European Parliament.

Rows marked with green are tentatively agreed, with yellow have been discussed but not tentatively agreed and with no colour have not been discussed.

REGULATION on the accounting of greenhouse gas emissions of transport services (Text with EEA relevance)

Recital 12d				
22d		***(12d) In its judgment of 27 October 2016 in case C-613/14, the Court held that a harmonised standard, adopted on the basis of a directive and the references to which have been published in the Official Journal of the European Union, forms part of EU law owing to its legal effects. In its judgment of 5 March 2024 in case C-588/21 P, the Court found the existence of an overriding public interest, within the meaning of the last clause of Article 4(2) of Regulation No 1049/2001, arising from the principles of the rule of law, transparency, openness and good governance, and justifying the disclosure of specific harmonised standards, since those standards form part of EU law owing to their legal effects.***
