14		(1) The European Chemicals Agency ('the Agency') was established by Article 75(1) of Regulation (EC) No 1907/2006 ¹ as the central entity to ensure the effective management of the technical, scientific and administrative aspects of that Regulation and their consistency at Union level, following the results of a feasibility study which concluded that an independent central entity offered a number of long-term advantages over other options. 1. Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (OJ L 396, 30.12.2006, p. 1, ELI: http://data.europa.eu/eli/reg/2006/1907/oj).

15	<p>(2) The structure of the Agency was set up taking into account experience gained from similar Union agencies, while adapting it to the specific needs of Regulation (EC) No 1907/2006. It comprises a Management Board, an Executive Director, a Committee for Risk Assessment ('RAC'), a Committee for Socio-economic Analysis ('SEAC'), a Member State Committee ('MSC'), a Forum for Exchange of Information on Enforcement ('the Forum'), a Secretariat and a Board of Appeal. With the adoption of Regulation (EU) No 528/2012¹, the Biocidal Products Committee ('BPC') was established within the Agency.</p> <p>¹. Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products (OJ L 167, 27.6.2012, p. 1, ELI: http://data.europa.eu/eli/reg/2012/528/oj).</p>	
Recital 3		
16	<p>(3) The Agency and its bodies have been involved in each stage of the implementation of Regulation (EC) No 1907/2006, providing technical and scientific assessments, opinions, guidance and tools for the Commission, Member States and duty holders in the framework of the registration and evaluation of substances as well as for restrictions and authorisations. The Agency has also played an important role in coordinating the communication around Regulation (EC) No 1907/2006 and has provided administrative support to the Commission, national competent authorities and duty holders.</p>	
Recital 4		
17	<p>(4) Since its establishment under Regulation (EC) No 1907/2006, additional tasks and responsibilities have been assigned to the Agency and its committees by other Union legislation in the fields of, for instance, chemicals, product safety and environmental policy. The Agency should carry out the tasks assigned to it under both this Regulation and sectoral Union legislation. For transparency and to provide a coherent overview of the Agency's responsibilities under sectoral Union legislation, such legislation should be listed in Annex I of this Regulation.</p>	
Recital 5

18	<p>(5) The ‘One substance, One assessment’ approach, which is part of the European Green Deal¹, calls for more transparent and simpler chemical safety assessment processes to reduce the burden for stakeholders, accelerate decision-making, as well as to increase consistency, coherence and predictability. Therefore the Chemicals Strategy for Sustainability (‘CSS’)² indicates that, part of the scientific and technical work on chemicals performed at Union level in support of Union legislation needs to be re-attributed to the most suitable agencies by targeted amendments of existing relevant chemicals legislation when those are revised and by the ‘One substance, One assessment’ legislative package³. The CSS also announced a Commission proposal to strengthen the governance of the Agency and increase the sustainability of its financing model.</p> <p>1. Communication from the Commission to the European Parliament, the European Council, the Council, the European Economic and Social Committee and the Committee of the Regions, The European Green Deal (COM (2019) 640 final).</p> <p>2. Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions, Chemicals Strategy for Sustainability Towards a Toxic-Free Environment (COM (2020) 667 final).</p> <p>3. Regulation (EU) XXXX/XXX of the European Parliament and of the Council amending Regulations (EC) No 178/2002, (EC) No 401/2009, (EU) 2017/745 and (EU) 2019/1021 of the European Parliament and of the Council as regards the re-attribution of scientific and technical tasks and improving cooperation among Union agencies in the area of chemicals, Directive (EU) XXXX/XXX of the European Parliament and the Council amending Directive 2011/65/EU of the European Parliament and of the Council as regards the re-attribution of scientific and technical tasks to the European Chemicals Agency and Regulation (EU) XXX/XXX of the European Parliament and of the Council establishing a common data platform on chemicals, laying down rules to ensure that the data contained in it are findable, accessible, interoperable and reusable and establishing a monitoring and outlook framework for chemicals.</p>	
Recital 6		
19	<p>(6) The Agency was established before the endorsement of the Common Approach of the European Parliament, the Council of the European Union and the European Commission on decentralised agencies¹ (‘Common Approach’) which put in place a comprehensive set of guiding principles to make the functioning of the Union’s decentralised agencies more coherent, effective and accountable.</p>

20	(7) Against this background, the Agency should be governed by a single Regulation in order to cover in one act the Agency's extended tasks and involvement in the implementation of several pieces of legislation and to ensure its efficient and sustainable governance, taking into account the principles of the Common Approach. This Regulation should therefore replace the provisions of Regulation (EC) No 1907/2006 governing the Agency. The Agency was initially established by Article 75(1) of Regulation (EC) No 1907/2006. That establishment should not be affected by this Regulation.

21	(8) The seat of the Agency is in Helsinki, Finland, pursuant to the Decision taken by the common agreement between the representatives of the Member States, meeting at head of state or government level of 13 December 2003 (2004/97/EC, Euratom) ¹ . That decision should be reflected accordingly in this Regulation. ¹ 2004/97/EC, Euratom: Decision taken by common agreement between the Representatives of the Member States, meeting at Head of State or Government level, of 13 December 2003 on the location of the seats of certain offices and agencies of the European Union (OJ L 29, 3.2.2004, p. 15, ELI: http://data.europa.eu/eli/dec/2004/97(1)/oj).

24a				<u>(11a) The Agency should be central to ensuring that chemicals legislation and the decision-making processes and scientific basis underlying it have credibility with all stakeholders and the public. As trust and confidence in the Agency and its opinions and advice by the Union institutions, the Member States, the general public and interested parties is vital, the Agency's independence and that of its Committees should be ensured. Therefore, the Agency and its Committees should have rules on the prevention and management of conflicts of interest. Persons should not be nominated or appointed as members of the Committees if there are reasonable grounds to believe that they have a conflict of interest. Members of the Committees should refrain from any action incompatible with their duties or the performance of their tasks and should be required to make annual declarations of interest.</u>

Articles 16, 16a and 18a of Directive 2004/37/EC of the European Parliament and of the Council² and Articles 18c and 22a of Directive 2009/148/EC of the European Parliament and of the Council³ on the basis of an ad hoc agreement between the Commission and the Agency in the past. Since this task has become customary and in order to consolidate that practice, this Regulation should establish that RAC should provide such opinions upon request from the Commission. In addition, RAC should, upon a request from the Commission, provide scientific opinions on all other matters related to the hazards, risks and safe use of chemical substances, on their own, in mixtures or in articles as defined in Article 3, paragraphs 1, 2 and 3 of Regulation (EC) No 1907/2006.</p> <p>1. This will allow for more flexibility for the Agency to address workload fluctuations and will respond to the recommendations of the Court of Auditors and to the objective of the CSS to increase the sustainability of the Agency's financing model. <u>To ensure transparency, the Agency should maintain an analytical monitoring of the income from fees and charges by activity.</u> The removal of the segregation of budgets should not affect existing obligations of financial contributions by third countries to the Agency.</p> <p>1. 38	<p>(25) The Agency has experienced difficulties to accurately predict the income from fees and charges even with the most advanced statistical techniques due to the paucity of information on the drivers of demand from duty holders. This impacts the operations of the Agency and requires recurrent amendments to the budget by the Management Board. Therefore, the Agency should be allowed to create a reserve from the surplus of its revenues from fees and charges, subject to the conditions set out in this Regulation. This will allow the Agency to mitigate the consequences of</p>

	<p>large fluctuation in income from fees and charges. Specifically, the creation of such reserve will allow the Agency to increase the sustainability of its financing model without prejudice to the annual Union contribution and multiannual financial programming. The detailed rules on the parameters, the calculation and the operation of the reserve should be laid down in the Agency's financial rules and should include the requirements set out in this Regulation. The calculation of the amount of the annual contribution to the reserve or of the amount made available from the reserve, to be included in the draft budget of the Agency, should follow a methodology mechanically applied by the Agency every year.</p>	
Recital 26		
39	<p>(26) In order to be able to address the large fluctuations in the Agency's revenues from fees, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union (TFEU) should be delegated to the Commission in respect of amending the specific conditions defined for the reserve. It is of particular importance that the Commission carries out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making¹. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.</p> <p>¹.
