| THE EUROPEAN PARLIAMENT AND THE | | |
| COUNCIL OF THE EUROPEAN UNION, | | |
| | | |
| Having regard to the Treaty on the Functioning | | |
| of the European Union, and in particular Article | | |
| 114 thereof, | | |
| | | |
| Having regard to the proposal from the | | |
| European Commission, | | |
| After transmission of the draft legislative act to | | |
| the national parliaments, | | |
| The name partial parti | | |
| Having regard to the opinion of the European | | |
| Economic and Social Committee ¹ , | | |
| | | |

OJ C,, p.

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| Having regard to the opinion of the Committee | | |
| of the Regions ² , | | |
| | | |
| Acting in accordance with the ordinary | | |
| legislative procedure, | | |
| | | |
| Whereas: | | |
| | | |
| (1) The digital economy has been changing | | |
| the internal market profoundly over the last | | |
| decade. The Union's vision is a digital economy | | |
| that delivers sustainable economic and social | | |
| benefits based on excellent and secure | | |
| connectivity for everybody and everywhere in | | |
| Europe. A high-quality digital infrastructure | | |
| based on very high capacity networks underpins | | |
| almost all sectors of a modern and innovative | | |
| economy. It is of strategic importance to social | | |
| and territorial cohesion and overall for the | | |

OJ C,, p.

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| Union's competitiveness and digital leadership. | | |
| Therefore, people as well as the private and | | |
| public sectors should have the opportunity to be | | |
| part of the digital economy. | | |
| | | |
| (2) The rapid evolution of technologies, the | | |
| exponential growth in broadband traffic and the | | |
| increasing demand for advanced very high- | | |
| capacity connectivity have further accelerated | | |
| during the COVID-19 pandemic. As a result, the | | |
| targets laid down in the Digital Agenda in 2010 ³ | | |
| have mostly been met, but they have also | | |
| become obsolete. The share of households | | |
| having access to 30 Mbps internet speeds has | | |
| increased from 58.1% in 2013 to 90% in 2022. | | |
| Availability of only 30 Mbps is no longer | | |
| future-proof and not aligned with the new | | |
| objectives set in Directive (EU) 2018/1972 of | | |

Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions, 19.05.2010, COM(2010)245.

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| the European Parliament and of the Council ⁴ for | | |
| ensuring connectivity and widespread | | |
| availability of very high capacity networks. | | |
| Therefore, in the Decision (EU) 2022/2481 of | | |
| the European Parliament and Council ⁵ , the EU | | |
| set updated targets for 2030 that better | | |
| correspond to the expected connectivity needs | | |
| of the future where all European households | | |
| should be covered by a gigabit network, with all | | |
| populated areas covered by 5G. | | |
| | | |
| (3) To achieve those targets, there is a need | | |
| for policies to speed up and lower the costs of | | |
| the deployment of very high-capacity fixed and | | |
| wireless networks across the Union, including | | |
| proper planning, coordination and the reduction | | |
| of administrative burdens. | | |

Directive (EU) 2018/1972 of the European Parliament and of the Council of 11 December 2018 establishing the European Electronic Communications Code (OJ L 321, 17.12.2018, p. 36).

Decision (EU) 2022/2481 of the European Parliament and of the Council of 14 December 2022 establishing the Digital Decade Policy Programme 2030 (OJ L 323, 19.12.2022, p. 4).

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| | | |
| (4) Directive 2014/61/EU, which was adopted | | |
| in response to the need for policies to lower the | | |
| costs of broadband deployment, included | | |
| measures on infrastructure sharing, civil works | | |
| coordination and the reduction of administrative | | |
| burdens. To further facilitate the roll-out of very | | |
| high capacity networks, including fibre and 5G, | | |
| the European Council, called in its Conclusions | | |
| on Shaping Europe's Digital Future of 9 June | | |
| 2020, called for a package of additional | | |
| measures to support current and emerging | | |
| network deployment needs, including by | | |
| reviewing Directive 2014/61/EU. | | |
| | | |
| (5) The roll-out of very high capacity | | |
| networks (as defined in Directive (EU) | | |
| 2018/1972) across the Union requires | | |
| substantial investment, a significant proportion | | |
| of which is the cost of civil engineering works. | | |
| Sharing physical infrastructure would limit the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| need for costly civil engineering works and | | |
| make advanced broadband roll-out more | | |
| effective. | | |
| | | |
| (6) A major part of the costs of deploying | | |
| very high capacity networks can be attributed to | | |
| inefficiencies in the roll-out process related to: | | |
| (i) the use of existing passive infrastructure | | |
| (such as ducts, conduits, manholes, cabinets, | | |
| poles, masts, antenna installations, towers and | | |
| other supporting constructions); (ii) bottlenecks | | |
| related to the coordination of civil works; (iii) | | |
| burdensome administrative procedures to grant | | |
| permits; and (iv) bottlenecks in in-building | | |
| deployment of networks, which lead to high | | |
| financial barriers, particularly in rural areas. | | |
| | | |
| (7) Directive 2014/61/EU of the European | | |
| Parliament and of the Council ⁶ , which was | | |

Directive 2014/61/EU of the European Parliament and of the Council of 15 May 2014 on measures to reduce the cost of deploying high-speed electronic communications networks (OJ L 155, 23.5.2014, p. 1).

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| adopted in response to the need to lower the | | |
| costs of broadband deployment, included | | |
| measures on infrastructure sharing, civil works | | |
| coordination and the reduction of administrative | | |
| burdens. To further facilitate the roll-out of very | | |
| high capacity networks, including fibre and 5G, | | |
| the European Council, in its Conclusions on | | |
| Shaping Europe's Digital Future of 9 June 2020, | | |
| called for a package of additional measures to | | |
| support current and emerging network | | |
| deployment needs, including by reviewing | | |
| Directive 2014/61/EU. | | |
| | | |
| (8) The measures set out in Directive | | |
| 2014/61/EU contributed to less costly | | |
| deployments of high-speed electronic | | |
| communications networks. However, these | | |
| measures should be strengthened to further | | |
| reduce costs and speed up network deployment. | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| (9) Measures aiming to make using public | | |
| and private existing infrastructures more | | |
| efficient and reduce costs and obstacles in | | |
| carrying out new civil engineering works should | | |
| contribute substantially to ensuring a fast and | | |
| extensive deployment of very high capacity | | |
| networks. These measures should maintain | | |
| effective competition without harming the | | |
| safety, security and smooth operation of the | | |
| existing infrastructure. | | |
| | | |
| (10) Some Member States have adopted | | |
| measures to reduce the costs of broadband roll- | | |
| out, including by going beyond the provisions of | | |
| Directive 2014/61/EU. However, those | | |
| measures are still very different across Member | | |
| States and have led to different results across the | | |
| Union. Scaling up some of those measures | | |
| across the Union and taking new reinforced | | |
| measures could significantly contribute to the | | |
| better functioning of the digital single market. | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| Moreover, differences in regulatory | | |
| requirements and inconsistent implementation | | |
| of Union rules sometimes prevent cooperation | | |
| across utility companies. The differences may | | |
| also raise barriers to entry for new undertakings | | |
| providing or authorised to provide public | | |
| electronics communications networks or | | |
| associated facilities, as defined in Directive | | |
| (EU) 2018/1972 ('operators'). These differences | | |
| may also close off new business opportunities, | | |
| hindering the development of an internal market | | |
| for the use and deployment of physical | | |
| infrastructures for very high capacity networks. | | |
| Moreover, the measures notified in the national | | |
| roadmaps and implementation reports adopted | | |
| by Member States under Commission | | |
| Recommendation (EU) 2020/1307 ⁷ neither | | |
| cover all the areas of Directive 2014/61/EU nor | | |

Commission Recommendation (EU) 2020/1307 of 18 September 2020 on a common Union toolbox for reducing the cost of deploying very high capacity networks and ensuring timely and investment-friendly access to 5G radio spectrum, to foster connectivity in support of economic recovery from the COVID-19 crisis in the Union (OJ L 305, 21.9.2020, p. 33).

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| address all issues in a consistent and complete | | |
| manner. This is despite how essential it is to | | |
| take action across the whole roll-out process and | | |
| across sectors to achieve a coherent and | | - "// |
| significant impact. | | |
| | | |
| (11) This Regulation aims to strengthen and | | |
| harmonise rights and obligations applicable | | |
| across the Union to accelerate the roll-out of | | |
| very high capacity networks and cross-sector | | |
| coordination,- including backbone and 5G- | | |
| ready-networks. Due to the persistent | | |
| fragmentation of electronic communications | | |
| markets in individual national markets, This | | |
| will help undertakings providing or authorised | | |
| to provide electronic communications networks | | |
| are unable to achieve economies of scale. This | | |
| A lack of high quality connectivity in the | | |
| Union can have a strong downstream effect on | | |
| cross-border trade and services provision, since | | |
| many services can only be provided where an | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| adequately performant network is in place | | |
| across the Union. While ensuring an improved | | |
| level playing field, this Regulation does not | | |
| prevent stricter or more detailed national | | |
| measures-rules in compliance with Union law | | |
| that serve to promote the joint use of existing | | |
| physical infrastructure or enable a more efficient | | |
| deployment of new physical infrastructure by | | |
| complementing the rights and obligations laid | | |
| down in this Regulation and provide solutions | | |
| to better achieve its objectives. For example, | | |
| Member States could extend go beyond | | |
| provisions on civil works coordination by | | |
| applying them also to privately funded projects | | |
| or requireing that more information on physical | | |
| infrastructure or planned civil works is provided | | |
| to a single information point in electronic | | |
| format or applying shorter deadlines, provided | | |
| that they do not violate Union law including the | | |
| provisions of this Regulation. | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| (12) To ensure legal certainty, including | | |
| regarding specific regulatory measures imposed | | |
| under Directive (EU) 2018/1972, under Part II, | | |
| Title II, Chapters II to IV and Directive | | |
| 2002/77/EC ⁸ , the provisions of these directives | | |
| should prevail over this Regulation. This | | |
| Regulation is without prejudice to the | | |
| possibility for national regulatory authorities | | |
| to maintain or introduce measures falling | | |
| outside the scope of this Regulation, such as | | |
| access obligations for in-building wiring, in | | |
| accordance with the Directive (EU) | | |
| 2018/1972, | | |
| | | |
| (13) It can be significantly more efficient for | | |
| operators, in particular new entrants, to reuse | | |
| existing physical infrastructure, including that of | | |
| other utilities, to roll out very high capacity | | |
| networks or associated facilities. This is the | | |

Commission Directive 2002/77/EC of 16 September 2002 on competition in the markets for electronic communications networks and services (OJ L 249, 17.9.2002, p. 21).

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| case, in particular, in areas where no suitable | | |
| electronic communications network is available | | |
| or where it may not be economically feasible to | | |
| build new physical infrastructure. Moreover, | | - "// |
| synergies across sectors may significantly | | |
| reduce the need for civil works relating to the | | |
| deployment of very high capacity networks. | | |
| This reuse can also reduce the social and | | |
| environmental costs linked to these works, such | | |
| as pollution, noise and traffic congestion. | | |
| Therefore, this Regulation should apply not only | | |
| to operators but also to owners or holders of | | |
| rights to use extensive and ubiquitous physical | | |
| infrastructure suitable to host electronic | | |
| communications network elements, such as | | |
| physical networks for the provision of | | |
| electricity, gas, water and sewage and drainage | | |
| systems, and heating and transport services. In | | |
| the case of holders of rights, this does not | | |
| change any property rights of third parties. | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| (13b) This Regulation should not apply to | | |
| public undertakings unless they meet the | | |
| requirements for network operators. | | |
| | | |
| (14) To improve the deployment of very high | | |
| capacity networks in the internal market, this | | |
| Regulation should lay down rights for | | |
| undertakings providing public electronic | | |
| communications networks or associated | | |
| facilities (including undertakings of a public | | |
| nature) to access physical infrastructure | | |
| regardless of its location under fair and | | |
| reasonable terms consistent with the normal | | |
| exercise of property rights. The obligation to | | |
| give access to the physical infrastructure should | | |
| be without prejudice to the rights of the owner | | |
| of the land or of the building in which the | | |
| infrastructure is located. | | |
| | | |
| (15) In particular, taking into account the fast | | |
| development of providers of wireless physical | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| infrastructure such as 'tower companies', and | | |
| their increasingly significant role as providers of | | |
| access to physical infrastructure suitable to | | |
| install elements of wireless electronic | | |
| communications networks, such as 5G, the | | |
| definition of 'network operator' should be | | |
| extended beyond undertakings providing or | | |
| authorised to provide electronic | | |
| communications networks and operators of | | |
| other types of networks, such as transport, gas | | |
| or electricity, to include undertakings providing | | |
| associated facilities, which thus become subject | | |
| to all the obligations and benefits set out in the | | |
| Regulation, except the provisions regarding in- | | |
| building physical infrastructure and access. | | |
| | | |
| (16) In view of their low degree of | | |
| differentiation, the physical facilities of a | | |
| network can often host a wide range of | | |
| electronic communications network elements at | | |
| the same time without affecting the main service | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| provided and with minimum adaptation costs. | | |
| These elements include those capable of | | |
| delivering broadband access services at speeds | | |
| of at least 100 Mbps VHCN in line with the | | - * // |
| technological neutrality principle. Therefore, | | |
| physical infrastructure, that is intended to only | | |
| host other elements of a network without | | |
| becoming an active network element itself. such | | |
| as dark fibre, can in principle be used to | | |
| accommodate electronic communications | | |
| cables, equipment or any other element of | | |
| electronic communications networks, regardless | | |
| of its current use or its ownership, security | | |
| concerns or future business interests of the | | |
| infrastructure's owner. The physical | | |
| infrastructure of public electronic | | |
| communications networks can in principle also | | |
| be used to accommodate elements of other | | |
| networks. Therefore, in appropriate cases, | | |
| public electronic communications network | | |
| operators may give access to their networks so | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| that other networks can be deployed. Without | | |
| prejudice to the pursuit of the specific general | | |
| interest linked to the provision of the main | | |
| service, synergies between network operators | | - " // |
| should at the same time be encouraged to | | |
| contribute to achieving the digital targets set out | | |
| in Decision (EU) 2022/2481. | | |
| | | |
| (17) In the absence of a justified exception, | | |
| physical infrastructure elements owned or | | |
| controlled by public sector bodies, even when | | |
| they are not part of a network, can also host | | |
| electronic communications network elements | | |
| and in such cases should be made accessible to | | |
| facilitate installing network elements of very | | |
| high capacity networks, in particular wireless | | |
| networks. Examples of physical infrastructure | | |
| elements are buildings, including their | | |
| rooftops and part of their facades, entries to | | |
| buildings, and any other asset, including street | | |
| furniture, such as light poles, street signs, traffic | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| lights, billboards, toll frames, bus and tramway | | |
| stops and metro and railway stations. It is for | | |
| Member States to identify specific buildings | | |
| categories of physical infrastucture owned or | | |
| controlled by public sector bodies in their | | |
| territories where access obligations cannot | | |
| apply, for example, for reasons of architectural, | | |
| historical, religious or natural enviromental | | |
| value. | | |
| | | |
| (17a) The access point to the building should | | |
| be easily accessible, that is, accessible without | | |
| excessive effort, especially in cases when it is | | |
| located inside the building, without creating | | |
| or facilitating a monopoly in the building. | | |
| | | |
| (18) This Regulation should be without | | |
| prejudice to any specific safeguard needed to | | |
| ensure national security, safety and public | | |
| health, the security and integrity of the | | |
| networks, in particular critical infrastructure, as | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| defined by national law, and to ensure that the | | |
| main service provided by the network operator | | |
| is not affected, in particular in networks used for | | |
| the provision of water intended for human | | - 1 |
| consumption. However, general rules in national | | |
| legislation prohibiting network operators from | | |
| negotiating access to physical infrastructures by | | |
| undertakings providing or authorised to provide | | |
| electronic communications networks or | | |
| associated facilities could prevent creating a | | |
| market for access to physical infrastructure. | | |
| Such general rules should therefore be | | |
| abolished. At the same time, the measures set | | |
| out in this Regulation should not prevent | | |
| Member States from incentivising utility | | |
| operators to give access to infrastructure by | | |
| excluding revenue generated from the access to | | |
| their physical infrastructure when calculating | | |
| end-user tariffs for their main activity or | | |
| activities, in accordance with applicable Union | | |
| law. | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| | | |
| (19) In order to ensure legal certainty and | | |
| avoid disproportionate burdens on network | | |
| operators resulting from the simultaneous | | |
| application of two distinct access regimes to the | | |
| same physical infrastructure, physical | | |
| infrastructure subject to access obligations | | |
| imposed by national regulatory authorities | | |
| pursuant to Directive (EU) 2018/1972 or access | | |
| obligations resulting from the application of | | |
| Union State aid rules should not be subject to | | |
| access obligations set out in this Regulation for | | |
| as long as such access obligations remain in | | |
| place. However, this Regulation should be | | |
| applicable where a national regulatory authority | | |
| has imposed an access obligation under | | |
| Directive (EU) 2018/1972 that limits the use | | |
| that can be made of the physical infrastructure | | |
| concerned. For instance, this could occur when | | |
| an operator planning to connect base stations | | |
| requests access to existing physical | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| infrastructure to which access obligations are | | |
| imposed in the market for access to wholesale | | |
| dedicated capacity9. | | |
| | | |
| (20) To ensure proportionality and preserve | | 7 |
| investment incentives, a network operator or | | |
| public sector body should have the right to | | |
| refuse access to specific physical infrastructure | | |
| for objective and justified reasons. In particular, | | |
| a physical infrastructure for which access has | | |
| been requested could be technically unsuitable | | |
| due to specific circumstances, or because of lack | | |
| of currently available space or future needs for | | |
| space that are sufficiently demonstrated, for | | |
| instance, in publicly available investment plans. | | |
| To ensure proportionality and preserve | | |
| investment incentives, a network operator or | | |
| public sector body may refuse access to specific | | |

Commission Recommendation (EU) 2020/2245 of 18 December 2020 on relevant product and service markets within the electronic communications sector susceptible to ex ante regulation in accordance with Directive (EU) 2018/1972 of the European Parliament and of the Council establishing the European Electronic Communications Code, 18.12.2020, C(2020) 8750, OJ L 439, 29.12.2020, p. 23.

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| physical infrastructure. To avoid any potential | | |
| distortion of competition or any possible abuse | | |
| of the conditions to refuse access, any such | | |
| refusal should be duly justified and based on | | - " // |
| objective and detailed reasons. For example | | |
| such reasons would not be considered objective | | |
| where an undertaking providing or authorised to | | |
| provide electronic communications networks | | |
| has deployed physical infrastructure thanks to | | |
| civil works coordination with a network | | |
| operator other than an electronic | | |
| communications network operator and refuses | | |
| to grant access based on an alleged lack of | | |
| availability of space to host the elements of very | | |
| high capacity networks which results from | | |
| decisions made by the undertaking under its | | |
| control. In such case, a competition distortion | | |
| could arise if there is no other VHCN in the area | | |
| concerned by the access request. Similarly, in | | |
| specific circumstances, sharing the | | |
| infrastructure could jeopardise safety or public | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| health, network integrity and security, including | | |
| that of critical infrastructure, or could endanger | | |
| the provision of services that are primarily | | |
| provided over the same infrastructure. | | - "// |
| Moreover, where the network operator already | | |
| provides a viable alternative means of <u>local</u> | | |
| <u>passive</u> wholesale physical access to electronic | | |
| communications networks that would meet the | | |
| needs of the access seeker, such as dark fibre or | | |
| fibre unbundling, access to the underlying | | |
| physical infrastructure could have an adverse | | |
| economic impact on its business model, in | | |
| particular that of wholesale-only operators, and | | |
| incentives to invest. It may also risk an | | |
| inefficient duplication of network elements | | |
| physical infrastructure . The assessment of the | | |
| fair and reasonable character of the terms and | | |
| conditions for such alternative means of | | |
| wholesale physical access should take into | | |
| account, inter alia, the underlying business | | |
| model of the undertaking providing or | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| authorised to provide public electronic | | |
| communications networks granting access and | | |
| the need to avoid any reinforcement of the | | |
| significant market power, if any, of either party. | | |
| To preserve investment incentives and avoid | | |
| adverse and unintended economic impacts on | | |
| the business model of the first mover | | |
| operator in deploying FttP networks, | | |
| especially in rural areas, the consolidation of | | |
| entrenched positions of market dominance, | | |
| Member States could provide that when an | | |
| undertaking providing or authorised to | | |
| provide electronic communications networks ₂ | | |
| which has been designated with significant | | |
| market power by a national regulatory | | |
| authority, seeks access to the only fibre | | |
| network present in its target coverage area, | | |
| the access provider could refuse access to its | | |
| physical infrastructure if it provides, at fair | | |
| and reasonable terms and conditions, a viable | | |
| alternative means of wholesale active access | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| which is suitable for the provision of very | | |
| high capacity networks. | | |
| | | |
| (21) To facilitate the reuse of existing physical | | - // |
| infrastructure, where operators request access in | | |
| a specified area, network operators and public | | |
| sector bodies that own or control physical | | |
| infrastructure should make an offer for the | | |
| shared use of their facilities under fair and | | |
| reasonable terms and conditions, including | | |
| price, unless access is refused for objective and | | |
| justified reasons. Public sector bodies should | | |
| also be required to offer access under non- | | |
| discriminatory terms and conditions. Depending | | |
| on the circumstances, several factors could | | |
| influence the conditions under which such | | |
| access is granted. These conditions should | | |
| ensure that the access providers has a fair | | |
| opportunity to recover the costs and | | |
| investments incurred in order to provide | | |
| access, and may include: (i) any additional | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| maintenance and adaptation costs; (ii) any | | |
| preventive safeguards to be adopted to limit | | |
| adverse effects on network safety, security and | | |
| integrity; (iii) any specific liability arrangements | | |
| in the event of damages; (iv) the use of any | | |
| public subsidy granted for the construction of | | |
| the infrastructure, including specific terms and | | |
| conditions attached to the subsidy or provided | | |
| under national law in compliance with Union | | |
| law; (v) the ability to deliver or provide | | |
| infrastructure capacity to meet public service | | |
| obligations; and (vi) any constraints stemming | | |
| from national provisions aiming to protect the | | |
| environment, including minimising the visual | | |
| impact on public infrastructure to ensure | | |
| public acceptance and sustainable | | |
| deployment , public health, public security or to | | |
| meet town and country planning objectives. | | |
| | | |
| (22) Investments in physical infrastructure of | | |
| public electronic communications networks or | | |

|---|----------------------|----------|
| associated facilities should directly contribute to | | |
| the objectives set out in Decision (EU) | | |
| 2022/2481 and avoid opportunistic behaviour. | | |
| Therefore, any obligation of access to existing | | |
| physical infrastructure or coordination of civil | | |
| works should fully take into account a number | | |
| of factors such as (i) the economic viability of | | |
| those investments based on their risk profile; (ii) | | |
| any time schedule for the return on investment; | | |
| (iii) any impact that the access has on | | |
| downstream competition and consequently on | | |
| prices and return on investment; (iv) any | | |
| depreciation of the network assets at the time of | | |
| the access request; (v) any business case | | |
| underpinning the investment, in particular in the | | |
| physical infrastructure used for providing very | | |
| high capacity network services; and (vi) any | | |
| possibility previously offered to the access | | |
| seeker to co-deploy. | | |

| | | |
| (29) The discretion that Member States retain | | |
| to allocate the functions of the single | | |
| information points to more than one competent | | |
| body should not affect their ability to effectively | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| fulfil those functions. Where more than one | | |
| single information point is set up in a Member | | |
| State, a single national digital entry point | | |
| consisting of a common user interface should | | |
| ensure seamless access to all single information | | |
| points by electronic means. The single | | |
| information point should be fully digitised and | | |
| provide easy access to the relevant digital tools. | | |
| This will enable network operators and public | | |
| sector bodies exercise their rights and comply | | |
| with the obligations set out in this Regulation. | | |
| This includes fast access to the minimum | | |
| information on existing physical infrastructure | | |
| and planned civil works, general conditions of | | |
| network operators for access to existing | | |
| physical infrastructure, electronic | | |
| administrative procedures for granting permits | | |
| and rights of way, and the applicable conditions | | |
| and procedures. As part of this minimum | | |
| information, the single information point should | | |
| give access to georeferenced information on the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| location of existing physical infrastructure and | | |
| planned civil works. To facilitate this, Member | | |
| States should provide automated digital tools for | | |
| the submission of the georeferenced information | | |
| and conversion tools to the supported data | | |
| formats. These could be made available to | | |
| network operators and public sector bodies | | |
| responsible for providing this information via | | |
| the single information point. Furthermore, | | |
| where georeferenced location data are available | | |
| via other digital tools, such as the INSPIRE | | |
| Geoportal under Directive 2007/2/EC of the | | |
| European Parliament and of the Council ¹⁰ , the | | |
| single information point could provide user- | | |
| friendly access to this information. | | |
| | | |
| (30) To ensure proportionality and security, the | | |
| requirement to provide make available | | |
| information on existing physical infrastructure | | |

Directive 2007/2/EC of the European Parliament and of the Council of 14 March 2007 establishing an Infrastructure for Spatial Information in the European Community (INSPIRE) (OJ L 108, 25.4.2007, p. 1).

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| via the single information point need not apply | | |
| for the same reasons as those justifying a refusal | | |
| of an access request. In addition, providing | | |
| making available information on existing | | - " // |
| physical infrastructure via the single | | |
| information point could, in very specific cases, | | |
| be burdensome or disproportionate for network | | |
| operators and public sector bodies. This could | | |
| arise, for example, where the mapping of | | |
| relevant assets is not yet available and it would | | |
| be very costly to map or where access requests | | |
| are expected to be very low in certain areas of a | | |
| Member State or in respect to certain specific | | |
| physical infrastructure. Where it appears that | | |
| providing information is disproportionate based | | |
| on a detailed cost-benefit analysis, network | | |
| operators and public sector bodies should not be | | |
| obliged to provide make available such | | |
| information. Member States should conduct | | |
| such detailed cost-benefit analysis based on a | | |
| consultation with stakeholders on demand for | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| access to existing physical infrastructure, and | | |
| the analysis should be updated regularly. The | | |
| consultation process and its outcome should be | | |
| made public <u>ly available</u> via a single | | |
| information point. , and the specific physical | | |
| infrastructure to be exempted from this | | |
| obligation should be notified to the | | |
| Commission. | | |
| | | |
| (31) To ensure consistency, the competent | | |
| bodies performing the functions of the single | | |
| information point, the national regulatory | | |
| authorities fulfilling their tasks under Directive | | |
| (EU) 2018/1972 or other competent authorities, | | |
| such as national, regional or local authorities in | | |
| charge of cadastre or the implementation of | | |
| Directive 2007/2/EC (INSPIRE), as appropriate, | | |
| should consult and cooperate with each other. | | |
| The purpose of such cooperation should be to | | |
| minimise the efforts in complying with | | |
| transparency obligations on network operators | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| and public sector bodies, including the | | |
| undertakings designated with significant market | | |
| power ('SMP' operators), to make information | | |
| available about their physical infrastructure; | | - " // |
| Where a different data set on physical | | |
| infrastructure of the SMP operator is required | | |
| such cooperation should result in establishing | | |
| useful interlinks and synergies between the | | |
| SMP-related database and the single | | |
| information point and proportionate common | | |
| practices of data collection and data provision to | | |
| deliver results that are easily comparable. | | |
| Cooperation should also aim at facilitating | | |
| access to information on physical infrastructure, | | |
| in light of national circumstances. If regulatory | | |
| obligations are modified or withdrawn, the | | |
| parties affected should be able to agree on the | | |
| best solutions to adapt the collection and | | |
| provision of physical infrastructure data to the | | |
| newly applicable regulatory requirements. | | |
| | | |

| physical infrastructure deployment paths and the | | |
| technology and equipment to be used, before the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| coordination of civil works. Therefore, the | | |
| request for coordination of civil works should | | |
| be filed as soon as possible. | | |
| | | |
| (38) A number of different permits for | | |
| deploying elements of electronic | | |
| communications networks or associated | | |
| facilities may be necessary in order to protect | | |
| national and Union general interests. These can | | |
| include digging, building, town planning, | | |
| environmental and other permits as well as | | |
| rights of way. The number of permits and rights | | |
| of way required for deploying different types of | | |
| electronic communications networks or | | |
| associated facilities and the local character of | | |
| the deployment could involve applying different | | |
| procedures and conditions, which can cause | | |
| difficulties in the network deployment. | | |
| Therefore, to facilitate deployment, all rules on | | |
| the conditions and procedures applicable to | | |
| granting permits and rights of way should be | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| streamlined and consistent at national level. | | |
| While preserving the right of each competent | | |
| authority to be involved and maintain its | | |
| decision-making prerogatives in accordance | | - "// |
| with the subsidiarity principle, all information | | |
| on the procedures and general conditions | | |
| applicable to granting permits for civil works | | |
| and rights of way should be available via single | | |
| information points. This could reduce | | |
| complexity and increase efficiency and | | |
| transparency for all operators and particularly | | |
| new entrants and smaller operators not active in | | |
| that area. Moreover, operators should have the | | |
| right to submit their requests for permits and | | |
| rights of way in electronic format via a single | | |
| information point. Each competent authority | | |
| should keep up to date the status of the | | |
| permit applications which it is competent to | | |
| handle, including whether the permit have | | |
| been granted or refused, and ensure that | | |
| such information is accessible to the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| applicant via a single information point SIP. | | |
| Those undertakings should also be able to | | |
| retrieve information in electronic format about | | |
| the status of their requests and whether they | | - " // |
| have been granted or refused. | | |
| | | |
| (39) Permit-granting procedures should not be | | |
| barriers to investment or harm the internal | | |
| market. Member States should therefore ensure | | |
| that a decision on whether or not to grant | | |
| permits on the deployment of elements of very | | |
| high capacity networks or associated facilities is | | |
| made available within 4 months from the receipt | | |
| of a complete permit request. This is without | | |
| prejudice to other specific deadlines or | | |
| obligations laid down for the proper conduct of | | |
| the procedure, which are applicable to the | | |
| permit-granting procedure in accordance with | | |
| national or Union <u>law</u> or national law | | |
| providing other specific deadlines or | | |
| obligations for the proper conduct of the | | |

|---|--|---|
| | challenge the administrative decision explicitly or implicitly granting the permit In the case of an amendment or an extension of the application for a permit or right of way the applications are regarded as new applications for the purpose of calculating the deadlines. | This new wording clarifies, that deadlines run again, if the applicant amends or extents the permit application or the application for rights of way. |
| (42b) To ensure that the rights of third | | |
| parties property are protected, a permit application could include a proof that the | | |
| land or physical infrastructure owners has have granted its agreement to the | | |
| deployment, including in case of more complex deployments where the agreement of | | |
| several private and public landowners is required. Moreover, the categories of | Moreover, the categories of deployments | Clarification in line with the new text in Article |
| deployments exempted from permits under Union law should no longer be subject to | exempted from permits by the Member States under Union law should no longer be subject to | 7 paragraphs 8 and 9. |
| permits under national law. | permits under national law. | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|--|---|
| (43) To facilitate the deployment of elements of very high capacity networks, any fee related to a permit, other than rights of way, should be limited to the administrative costs related to processing the permit request according to the principles established in Article 16 of Directive (EU) 2018/1972. In the case of rights of way, | | |
| the provisions established in Articles 42 and 43 of Directive (EU) 2018/1972 apply. This does not include ancillary costs, unrelated to the processing of the permit request, for the depreciation, repair or replacement of public infrastructure resulting from; or measures to ensure public safety during, civil works levied by public sector bodies on the operator in line with national law. | This does not include ancillary costs, unrelated to the processing of the permit request, for example for the depreciation, repair or replacement of public infrastructure resulting from; or measures to ensure public safety during, civil works levied by public sector bodies on the operator in line with national law. | This clarification is necessary, since there may be other ancillary costs which are not related to the processing of the permit like spectrum fees. |
| (44) Achieving the targets set out in Decision (EU) 2022/2481 requires that, by 2030, all end users at fixed locations are covered by a gigabit | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| network up to a the network termination point | | |
| and all populated areas are covered by next- | | |
| generation wireless high-speed networks with at | | |
| least 5G-equivalent performance at least | | - " // |
| equivalent to that of 5G, in accordance with | | |
| the principle of technological neutrality. | | |
| Providing gigabit networks up to the end user | | |
| should be facilitated by a modern and future | | |
| proof fibre-based technology suitable, in | | |
| particular through fibre ready to a modern and | | |
| future proof in-building physical infrastructure, | | |
| building access point and inbuilding wiring. | | |
| Providing for mini-ducts during the construction | | |
| of a building has only a limited incremental | | |
| cost, while equipping buildings with gigabit | | |
| infrastructure may represent a significant part of | | |
| the cost of deploying a gigabit network. | | |
| Therefore, all new buildings or buildings subject | | |
| to a major renovation encompassing structural | | |
| modifications of the entire in-building | | |
| physical infrastructure or a significant part | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| thereof, should be equipped with physical | | |
| infrastructure, a building access point easily | | |
| accessible to one or more undertakings | | |
| providing or authorised to provide public | | - 1 |
| electronic communications networks and in- | | |
| building fibre wiring, enabling the connection of | | |
| end users to gigabit speeds. New multi-dwelling | | |
| buildings and multi-dwelling buildings subject | | |
| to major renovation encompassing structural | | |
| modifications of the entire in-building | | |
| physical infrastructure or a significant part | | |
| thereof should also be equipped with an | | |
| building access point, easily accessible to one | | |
| or more undertakings providing or authorised to | | |
| provide public electronic communications | | |
| networks. Moreover, building developers should | | |
| provide for empty ducts from every dwelling to | | |
| the building access point, located in side or | | |
| outside the multi-dwelling building, allowing | | |
| connections up to the network termination | | |
| points, or, in those Member State where the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| network termination point is not situated at | | |
| the end user's particular location, up to the | | |
| physical point where the end user connects to | | |
| access the public network. Major renovations | | |
| of existing buildings at the end user's location to | | |
| enhance energy performance (pursuant to | | |
| Directive 2010/31/EU of the European | | |
| Parliament and of the Council ¹²) provide a n | | |
| modernisation opportunity to also equip those | | |
| buildings with fibre-ready in-building physical | | |
| infrastructure, in-building fibre wiring and, for | | |
| multi-dwelling buildings, an building access | | |
| point. | | |
| | | |
| (44a) The access point to the building should | | |
| be easily accessible by multiple operators, | | |
| that is, accessible without excessive effort, | | |
| especially in cases when it is located inside | | |

Directive 2010/31/EU of the European Parliament and of the Council of 19 May 2010 on the energy performance of buildings (OJ L 153, 18.6.2010, p. 13).

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| the building, without creating or facilitating a | | |
| monopoly in the building. | | |
| | | |
| (44b) The provisions regarding fiber-ready | | |
| in-building physical infrastructure, fiber- | | |
| ready building access point and wiring <u>does</u> | | |
| not preclude the presence of other type of | | |
| technology within the same in-building | | |
| physical infrastructure. It should not affect | | |
| the right of building owners to <u>additionally</u> | | |
| equip the building with in-building wiring in | | |
| addition to fibre, with additional in-building | | |
| physical infrastructure capable of hosting | | |
| wiring in addition to fibre or other elements | | |
| of electronic communication networks. | | |
| (45) TI | | |
| (45) The prospect of equipping a building with | | |
| fibre-ready in-building physical infrastructure, | | |
| an fiber-ready building access point or in- | | |
| building fibre wiring may be considered | | |
| disproportionate in terms of costs <u>in specific</u> | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| cases, namely such as for some new single | | |
| dwellings or buildings undergoing major | | |
| renovation works. This may be based on | | |
| objective grounds, such as tailor-made cost | | |
| estimates, economic reasons linked to the | | |
| location, or <u>urban</u> -heritage conservation or | | |
| environmental reasons (for example, for specific | | |
| categories of monuments). | | |
| | | |
| (46) Prospective buyers and tenants would | | |
| benefit from should be able to identifying | | |
| buildings that are equipped with fibre-ready in- | | |
| building physical infrastructure, a fiber-ready | | |
| building access point and in-building fibre | | |
| wiring and that therefore have considerable | | |
| cost-saving potential. The fibre readiness of | | |
| buildings should also be promoted. Member | | |
| States should may therefore develop a | | |
| compulsory 'fibre-ready' label for buildings | | |
| equipped with such infrastructure, an fiber- | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| ready building access point and in-building | | |
| fibre wiring in accordance with this Regulation. | | |
| | | |
| (47) Undertakings providing or authorised to | | - // |
| provide public electronic communications | | |
| networks deploying gigabit networks in a | | |
| specific area could achieve significant | | |
| economies of scale if they could terminate their | | |
| network to the building's access point by using | | |
| existing physical infrastructure and restoring the | | |
| affected area. This should be possible | | |
| irrespective of whether a subscriber has | | |
| expressed explicit interest for the service at that | | |
| moment in time and provided that the impact on | | |
| private property is minimised. Once the network | | |
| is terminated at the building access point, the | | |
| connection of an additional customer is possible | | |
| at a significantly lower cost, in particular by | | |
| means of connections up to the network | | |
| termination points, or, where explicitly | | |
| permitted by the in those Member States | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| where it is allowed to situate when the | | |
| network termination point <u>is not situated at</u> | | |
| in a different place that the end user's | | |
| particular location, up to the physical point | | - * // |
| where the end user connects to access the | | |
| public network, in particular via an access to | | |
| a fibre-ready vertical segment inside the | | |
| building, where it already exists. That objective | | |
| is also fulfilled when the building itself is | | |
| already equipped with a gigabit network to | | |
| which access is provided to any public | | |
| communications network provider, which has an | | |
| active subscriber in the building, under | | |
| transparent, proportionate and non- | | |
| discriminatory terms and conditions. That could | | |
| in particular be the case in Member States that | | |
| have taken measures under Article 44 of | | |
| Directive (EU) 2018/1972. The provider | | |
| should remove the elements of its network | | |
| (such as obsolete cables, equipment) and | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| restore the affected area upon termination of | | |
| the contract with the subscriber. | | |
| | | |
| (48) In order to contribute to ensuring | | - "// |
| availability of gigabit networks to end users, | | |
| new buildings and majorly renovated buildings | | |
| should be equipped with fibre-ready in-building | | |
| physical infrastructure, in-building fibre wiring | | |
| and <u>in the case of multi-dwelling buildings</u> , an | | |
| building access point. Member States should | | |
| have a degree of flexibility to achieve this. This | | |
| Regulation, therefore, does not seek to | | |
| harmonise rules on related costs, including the | | |
| recovery of costs of equipping buildings with | | |
| fibre-ready in-building physical infrastructure, | | |
| in-building fibre wiring and an building access | | |
| point. | | |
| | | |
| (49) In line with the subsidiarity principle and | | |
| to take national circumstances into account, | | |
| Member States should adopt the standards or | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| technical specifications necessary for the | | |
| purpose of equipping newly constructed or | | |
| majorly renovated buildings with fibre-ready in- | | |
| building physical infrastructure and in-building | | - 1 |
| fibre wiring; and new or majorly renovated | | |
| multi-dwelling buildings with an access point. | | |
| Those standards or technical specifications | | |
| should may set out at least: the building access | | |
| point specifications; fibre interface | | |
| specifications; cable specifications; socket | | |
| specifications; specifications for pipes or micro- | | |
| ducts; technical specifications needed to prevent | | |
| interference with electrical cabling, and the | | |
| minimum bend radius. Member States should | | |
| <u>may</u> make the issuance of building permits | | |
| conditional on compliance of the relevant new | | |
| building or major renovation works project | | |
| requiring a building permit with the standards or | | |
| technical specifications based on a certified test | | |
| report or a similar procedure set up by | | |
| Member States. In addition to the building | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| permit, which are granted by the competent | | |
| authorities after verification that the | | |
| construction technical project complies with | | |
| the relevant regulations, in some Member | | |
| States a permit to use the building for its | | |
| intended purpose after completion of its | | |
| contruction is also required. Member States | | |
| should may also set up certification schemes for | | |
| the purpose of demonstrating compliance with | | |
| the standards or technical specifications as well | | |
| as for qualifying for the 'fibre-ready' label. | | |
| Moreover, to avoid an increase in red tape | | |
| related to the certification scheme set up under | | |
| this Regulation, Member States should could | | |
| take into account the procedural requirements | | |
| applied to certification schemes pursuant to | | |
| Directive 2010/31/EU and also consider the | | |
| possibility to enable the combined launch of | | |
| both request procedures. | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| (50) In view of the social benefits stemming | | |
| from digital inclusion and taking into account | | |
| the economics of deploying very high capacity | | |
| networks, where there is neither existing passive | | |
| or active fibre-ready infrastructure serving end | | |
| users' premises nor alternatives to providing | | |
| very high capacity networks to a subscriber, any | | |
| provider of public communications networks | | |
| provider should have the right to terminate its | | |
| network to a private premise at its own cost, | | |
| provided that the impact on private property is | | |
| minimised, for example, if possible, by reusing | | |
| the existing physical infrastructure available in | | |
| the building or ensuring full restoration of the | | |
| affected areas. | | |
| | | |
| (51) Requests for access to the in-building | | |
| physical infrastructure should fall under the | | |
| scope of this Regulation, whereas a request for | | |
| access to fibre wiring is to fall under the scope | | |
| of Directive (EU) 2018/1972. Moreover, access | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| to in-building physical infrastructure could be | | |
| refused if access to in-building fibre wiring is | | |
| made available under fair, reasonable and non- | | |
| discriminatory terms and conditions, including | | - "// |
| price. | | |
| (52) (53) | | |
| (52) To ensure consistency of approaches, the | | |
| Commission, in close cooperation with BEREC, | | |
| eould Member states may provide guidance on | | |
| the applications of provisions on access to in- | | |
| building physical infrastructure, including but | | |
| not only on the terms and conditions thereof. | | |
| The views of stakeholders and national dispute | | |
| settlement bodies should be duly taken into | | |
| account in the preparation of the guidance. | | |
| (52) T- 6-4-4-4 | | |
| (53) To foster the modernisation and agility of | | |
| administrative procedures and reduce the cost of | | |
| and time spent on the procedures for deploying | | |
| very high capacity networks, the services of | | |
| single information points should be performed | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| fully online. To that end, single information | | |
| points should provide easy access to the | | |
| necessary digital tools, such as web portals, | | |
| electronic addresses, databases, digital | | - * // |
| platforms, and digital applications. The tools | | |
| should give access in an efficient manner to the | | |
| minimum information on existing physical | | |
| infrastructure and planned civil works and the | | |
| possibility to request information. Such digital | | |
| tools should also give access to the electronic | | |
| administrative procedures for granting permits | | |
| and rights of way and related information on the | | |
| applicable conditions and procedures. Where | | |
| more than one single information point is set up | | |
| in a Member State, all single information points | | |
| should be easily and seamlessly accessible, by | | |
| electronic means, via a single national digital | | |
| entry point. This entry point should have a | | |
| common user interface ensuring access to the | | |
| online single information points. The single | | |
| national digital entry point should facilitate | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| interaction between operators and competent | | |
| authorities performing the functions of the | | |
| single information points. | | |
| | | |
| (54) Member States should be allowed to rely | | |
| on, and where necessary improve, digital tools, | | |
| such as web portals, databases, digital | | |
| platforms, and digital applications that might | | |
| already be available at local, regional or national | | |
| level to provide the functions of the single | | |
| information point provided they comply with | | |
| the obligations set out in this Regulation. This | | |
| includes access through a single national digital | | |
| entry point and the availability of all the | | |
| functionalities set out in this Regulation. To | | |
| comply with the 'once-only' data minimisation | | |
| and accuracy principles, Member States should | | |
| be allowed to integrate more digital platforms, | | |
| databases, or applications supporting the single | | |
| information points, as appropriate. For example, | | |
| the digital platforms, databases or applications | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| supporting the single information points on | | |
| existing physical infrastructure could be | | |
| interconnected or fully or partially integrated | | |
| with the ones for planned civil works and | | |
| granting permits. | | |
| | | |
| (55) To ensure the effectiveness of the single | | |
| information points provided for under this | | |
| Regulation, Member States should ensure | | |
| adequate resources as well as readily available | | |
| relevant information on a specific geographical | | |
| area. The information should be presented with | | |
| the right level of detail to maximise efficiency | | |
| in view of the tasks assigned, including at the | | |
| local cadastre. In that regard, Member States | | |
| could consider the possible synergies and | | |
| economies of scale with the points of single | | |
| contact within the meaning of Article 6 of | | |
| Directive 2006/123/EC of the European | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| Parliament and of the Council ¹³ and other | | |
| planned or existing e-government solutions with | | |
| a view to building on existing structures and | | |
| maximising the benefits for users. Similarly, the | | -1/ |
| Single Digital Gateway provided for in | | |
| Regulation (EU) 2018/1724 of the European | | |
| Parliament and of the Council ¹⁴ should link to | | |
| the single information points. | | |
| | | |
| (56) The costs for setting-up the single national | | |
| digital entry point, the single information points | | |
| and the digital tools needed to comply with the | | |
| provisions of this Regulation could be fully or | | |
| partly eligible for financial support under Union | | |
| funds, such as the European Regional | | |
| Development Fund - specific objective: a more | | |
| competitive and smarter Europe by promoting | | |

Directive 2006/123/EC of the European Parliament and of the Council of 12 December 2006 on services in the internal market (OJ L 376, 27.12.2006, p. 36).

Regulation (EU) 2018/1724 of the European Parliament and of the Council of 2 October 2018 establishing a single digital gateway to provide access to information, to procedures and to assistance and problem-solving services and amending Regulation (EU) No 1024/2012 (OJ L 295, 21.11.2018, p. 1).

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| during commercial negotiations on access to | | |
| physical infrastructure or coordination of civil | | |
| works, each party should be able to call on a | | |
| national dispute settlement body to impose a | | - " // |
| solution on the parties to avoid unjustified | | |
| refusals to meet the request or the imposition of | | |
| unreasonable conditions. When determining | | |
| prices for granting access to or cost-sharing for | | |
| coordinated civil works, the dispute settlement | | |
| body should ensure that the access provider and | | |
| network operators planning civil works have a | | |
| fair opportunity to recover their costs incurred | | |
| in providing access to their physical | | |
| infrastructure or coordinating their planned civil | | |
| works. This should take into account the | | |
| appropriate Commission guidance, any specific | | |
| national conditions, any tariff structures put in | | |
| place and any previous imposition of remedies | | |
| by a national regulatory authority. The dispute | | |
| settlement body should also take into account | | |
| the impact of the requested access or | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| coordination of planned civil works on the | | |
| business plan of the access provider or network | | |
| operators planning civil works, including their | | |
| investments made or planned, in particular | | |
| investments in the physical infrastructure to | | |
| which the request refers. | | |
| | | |
| (58) To avoid delays in network deployments, | | |
| the national dispute settlement body should | | |
| settle the dispute in a timely manner and, in any | | |
| event, at the latest within 4 months from receipt | | |
| of the request to settle the dispute in the case of | | |
| disputes on access to existing physical | | |
| infrastructure and 12 months when it concerns | | |
| transparency on physical infrastructure, | | |
| coordination of planned civil works and | | |
| transparency on planned civil works. | | |
| Exceptional circumstances justifying a delay in | | |
| the settlement of a dispute could be beyond the | | |
| control of the dispute settlement bodies, such as | | |
| insufficient information or documentation that is | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| necessary to take a decision, including the views | | |
| of other competent authorities that need to be | | |
| consulted or the high complexity of the file. | | |
| | | - 1 |
| (59) Where disputes arise on access to the | | |
| physical infrastructure, planned civil works or | | |
| information thereof to deploy very high capacity | | |
| networks, the dispute settlement body should | | |
| have the power to resolve such disputes by | | |
| means of a binding decision. In any case, | | |
| decisions of such a body should be without | | |
| prejudice to the possibility of any party to refer | | |
| the case to a court or to conduct a prior or | | |
| parallel conciliation mechanism to the formal | | |
| dispute settlement, which could take the form of | | |
| mediation or an additional round of exchanges. | | |
| | | |
| (60) In accordance with the principle of | | |
| subsidiarity, this Regulation should be without | | |
| prejudice to the possibility of Member States to | | |
| allocate regulatory tasks to the authorities best | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| suited to fulfil them in accordance with the | | |
| national constitutional system of attribution of | | |
| competences and powers and the requirements | | |
| set out in this Regulation. To reduce the | | - "// |
| administrative burden, Member States should be | | |
| allowed to appoint an existing body or maintain | | |
| the competent bodies already appointed | | |
| pursuant to Directive (EU) 2014/61/EU. | | |
| Information on the tasks allocated to the | | |
| competent body or bodies should be published | | |
| via a single information point and notified to the | | |
| Commission, unless already done pursuant to | | |
| Directive (EU) 2014/61/EU. The discretion that | | |
| Member States retain to allocate the functions of | | |
| the single information point to more than one | | |
| competent body should not affect their ability to | | |
| effectively fulfil those functions. | | |
| | | |
| (61) The designated national dispute settlement | | |
| body and the competent body performing the | | |
| functions of the single information point should | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| ensure impartiality, independence and structural | | |
| separation towards the parties involved, exercise | | |
| their powers impartially, transparently and in a | | |
| timely manner; and have the appropriate | | |
| competencies and resources. | | |
| (62) Member States should provide for | | |
| appropriate, effective, proportionate and | | |
| dissuasive penalties in the event of non- | | |
| compliance with this Regulation or with a | | |
| binding decision adopted by the competent | | |
| bodies, including cases where a network | | |
| operator or public sector body knowingly or | | |
| grossly and negligently provides misleading, | | |
| erroneous or incomplete information via a single | | |
| information point. | | |
| | | |
| (63) Since the objectives of this Regulation | | |
| aiming at facilitating the deployment of physical | | |
| infrastructures suitable for very high capacity | | |
| networks across the Union in a way which | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|---|----------|
| promotes the internal market cannot be | | |
| sufficiently achieved by the Member States | | |
| because of persistent divergent approaches as | | |
| well as the slow and ineffective transposition of | | |
| Directive 2014/61/EU but can rather, by reason | | |
| of the scale of the network deployments and | | |
| investment required, be better achieved at Union | | |
| level, the Union may adopt measures, in | | |
| accordance with the principle of subsidiarity as | | |
| set out in Article 5 TEU. In accordance with the | | |
| principle of proportionality, as set out in that | | |
| Article, this Regulation does not go beyond | | |
| what is necessary in order to achieve those | | |
| objectives. | | |
| | | |
| (63b) This Regulation is without prejudice to | (63b) This Regulation is without prejudice to | |
| the Member States' responsibility for | the Member States' responsibility for | |
| safeguarding national security or their power | safeguarding national security or their power | |
| to safeguard other essential State functions, | to safeguard other essential State functions, | |
| in particular concerning public security, | in particular concerning public security, | |

| | | |
| (66) A period of six eighteen twenty four | | |
| months between the entry into force and the | | |
| application aims to give sufficient time to | | |
| Member States to ensure their national | | |
| legislation does not contain any obstacles to the | | |
| uniform and effective application of this | | |
| Regulation. The period of 6 eighteen-twenty | | |
| <u>four</u> months is without prejudice to the specific | | |
| rules in this Regulation on the delayed | | |
| application of specific provisions as specified | | |
| therein. Member States are to withdraw national | | |
| provisions overlapping with this Regulation or | | |
| contradicting it by the time it starts to apply. As | | |
| regards adopting new legislation during this | | |
| period, it follows from Article 4(3) TEU that | | |
| Member States have a duty of sincere | | |
| cooperation not to take action that would | | |
| conflict with prospective Union legal rules, | | |
| | | |
| HAVE ADOPTED THIS REGULATION: | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| | | |
| Article 1 | | |
| | | |
| Subject matter and scope | | - // |
| | | |
| 1. This Regulation aims to facilitate and | | |
| stimulate the roll-out of very high capacity | | |
| networks by promoting the joint use of existing | | |
| physical infrastructure and by enabling a more | | |
| efficient deployment of new physical | | |
| infrastructure so that such networks can be | | |
| rolled out faster and at a lower cost. | | |
| | | |
| 2. If any provision of this Regulation conflicts | | |
| with a provision of Directive (EU) 2018/1972 or | | |
| Directive 2002/77/EC, the relevant provision of | | |
| those Directives shall prevail. | | |
| | | |
| 3. This Regulation sets minimum | | |
| requirements for achieving the aims set out | | |
| in paragraph 1. Member States may maintain | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|--|
| or introduce measures rules in conformity with | | |
| Union law which are stricter or more detailed | | |
| than those minimum requirements which | | |
| contain more detailed provisions than those set | | - " // |
| out in this Regulation, where they serve to | | |
| promote the joint use of existing physical | | |
| infrastructure or enable a more efficient | | |
| deployment of new physical infrastructure. | | |
| | | |
| 4. By way of exception to paragraph 3, Member | | |
| States shall not maintain or introduce in their | | |
| national law provisions diverging from rules | | |
| which are stricter or more detailed than those | | |
| laid down in Article 3(3) first subparagraph ₅ | | We welcome the new wording. It is important to |
| except its points (a) to (e) (f), and (6), Article | | DEU. |
| 4(5) second subparagraph, Article 5(2) second | | |
| subparagraph and (4), Article 6(2) and Article | | |
| 8(7) and (8). | | |
| | | |
| 5. This Regulation is without prejudice to the | | |
| Member States' responsibility for | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| safeguarding national security and their | | |
| power to safeguard other essential State | | |
| functions, including ensuring the territorial | | |
| integrity of the State and maintaining law | | |
| and order. | | |
| | | |
| Article 2 | | |
| D @ */* | | |
| Definitions | | |
| For the purposes of this Regulation, the | | |
| definitions in Directive (EU) 2018/1972 apply, | | |
| in particular the definitions of 'electronic | | |
| communications network', 'very high | | |
| capacity network', 'public electronic | | |
| communications network', 'network | | |
| termination point', 'associated facilities', | | |
| 'end-user', 'security of networks and | | |
| services', 'access', and 'operator' <u>in Directive</u> | | |
| (EU) 2018/1972 apply. | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| The following definitions also apply: | | |
| | | |
| (1) 'network operator' means: | | |
| | | |
| (a) an operator as defined in Article 2, point | | |
| (29), of Directive (EU) 2018/1972; | | |
| | | |
| (b) an undertaking providing a physical | | |
| infrastructure intended to provide: | | |
| | | |
| (i) a service of production, transport or | | |
| distribution of: | | |
| | | |
| - gas; | | |
| | | |
| - electricity, including public lighting; | | |
| | | |
| - heating; | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| - water, including disposal or treatment of | | |
| wastewater and sewage, and drainage systems; | | |
| | | |
| (ii) transport services, including railways, roads, | | - // |
| including urban roads, ports and airports; | | |
| | | |
| (2) 'public sector body' means a State, | | |
| regional or local authority, a body governed | | |
| by public law or an association formed by | | |
| one or several such authorities or one or | | |
| several such bodies governed by public law; | | |
| | | |
| (3) 'bodies governed by public law' means | | |
| bodies that have all of the following | | |
| characteristics: | | |
| | | |
| (a) they are established for the specific | | |
| purpose of meeting needs in the general | | |
| interest, not having an industrial or | | |
| commercial character; | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| (b) they have legal personality; | | |
| | | |
| (c) they are financed, in full or for the most | | |
| part, by state, regional or local authorities or | | - // |
| by other bodies governed by public law; or | | |
| are subject to management supervision by | | |
| those authorities or bodies; or have an | | |
| administrative, managerial or supervisory | | |
| board, more than half of whose members are | | |
| appointed by state, regional or local | | |
| authorities or by other bodies governed by public law; | | |
| public law, | | |
| (24) 'physical infrastructure' means: | | |
| | | |
| (a) any element of a network that is intended to host other elements of a network without | | |
| becoming an active element of the network | | |
| itself, such as pipes, masts, ducts, inspection | | |
| chambers, manholes, cabinets, antenna | | |
| installations, towers and poles, as well as, | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|-------------|
| where they are suitable to host other | | |
| elements of a network, buildings including | | |
| their rooftops and parts of their facades or | | |
| entries to buildings, and any other asset | | > |
| including street furniture, such as light poles, | | |
| street signs, traffic lights, billboards, tolls | | |
| frames, bus and tramway stops and metro and | | |
| railway stations; | | |
| | | |
| (b) where they are not part of a network and | | |
| are owned or controlled by public sector bodies: | | |
| public land, buildings including their rooftops | | |
| and parts of their facades or entries to | | |
| buildings, and any other asset that could be | | |
| suitable to host elements of a network, | | |
| including street furniture, such as light poles, | | |
| street signs, traffic lights, billboards, tolls | | |
| frames, bus and tramway stops and metro and | | |
| railway stations. | | |
| | | |

| | | |
| (5) 'bodies governed by public law' means | | |
| bodies that have all of the following | | |
| characteristics: | | - "// |
| | | |
| (a) they are established for the specific | | |
| purpose of meeting needs in the general interest, | | |
| not having an industrial or commercial | | |
| character; | | |
| | | |
| (b) they have legal personality; | | |
| | | |
| (c) they are financed, in full or for the most | | |
| part, by state, regional or local authorities or by | | |
| other bodies governed by public law; or are | | |
| subject to management supervision by those | | |
| authorities or bodies; or have an administrative, | | |
| managerial or supervisory board, more than half | | |
| of whose members are appointed by state, | | |
| regional or local authorities or by other bodies | | |
| governed by public law; | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| | | |
| (6) 'in-building physical infrastructure' means | | |
| physical infrastructure or installations at the end | | |
| user's location, including elements under joint | | |
| ownership, intended to host wired and/or | | |
| wireless access networks, where such access | | |
| networks are capable of delivering electronic | | |
| communications services and connecting the | | |
| building access point with the network | | |
| termination point or, in those Member States | | |
| where it is allowed to place the network | | |
| termination point <u>is not situated at</u> <u>outside</u> | | |
| the end user's particular location, up to the | | |
| physical point where the end user connects to | | |
| access the public network. | | |
| | | |
| (7) 'in-building fibre wiring' means optical | | |
| fibre cables at the end-user's location, including | | |
| elements under joint ownership, intended to | | |
| deliver electronic communications services and | | |
| connecting the building access point with the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| network termination point, or, in those | | |
| Member States, where it is allowed to place | | |
| the network termination point <u>is not situated</u> | | |
| at outside the end user's particular location, | | |
| up to the physical point where the end user | | |
| connects to be able to access the public | | |
| network. | | |
| | | |
| (8) 'fibre-ready in-building physical | | |
| infrastructure' means in-building physical | | |
| infrastructure intended to host optical fibre | | |
| elements; | | |
| | | |
| (9) 'major renovation works' means building or | | |
| civil <u>engineering</u> works at the end user's | | |
| location encompassing structural modifications | | |
| of the entire in-building physical infrastructure | | |
| or a significant part thereof and that require, in | | |
| accordance with national law, a building | | |
| permit; | | |
| | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| (10) 'permit' means an explicit or implicit | | |
| decision or set of decisions taken | | |
| simultaneously or successively by one or several | | |
| competent authorities that are required under | | <i>*</i> |
| national law needed for an undertaking to | | |
| carry out building or civil engineering works | | |
| necessary for the deployment of elements of | | |
| very high capacity networks; | | |
| | | |
| (11) 'building access point' means a physical | | |
| point, located inside or outside the building, | | |
| easily accessible to one or more undertakings | | |
| providing or authorised to provide public | | |
| electronic communications networks, where | | |
| connection to the fibre-ready in-building | | |
| physical infrastructure is made available. | | |
| | | |
| (12) 'rights of way' means rights referred to | | |
| in Article 43(1) of the Directive (EU) | | |
| 2018/1972, granted to an operator to install | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |

| facilities on, over or under public or private | | |
| property. | | |
| | | |
| Article 3 | | |
| | | |
| Access to existing physical infrastructure | | |
| | | |
| 1. Withouth prejudice to paragraph 3, all | | |
| Upon written request of an operator, public | | |
| sector bodies owning or controlling physical | | |
| infrastructure or and all network operators, | | |
| shall meet, upon written request of an | | |
| operator, shall meet all reasonable requests for | | |
| access to that physical infrastructure under fair | | |
| and reasonable terms and conditions, including | | |
| price, with a view to deploying elements of very | | |
| high capacity networks or associated facilities. | | |
| Public sector bodies owning or controlling | | |
| physical infrastructure shall meet all reasonable | | |
| requests for access also under non- | | |
| discriminatory terms and conditions. Such | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| written requests shall specify the elements of the | | |
| physical infrastructure for which the access is | | |
| requested, including a specific time frame. | | |
| Member States may specify detailed | | |
| requirements for these requests. | | |
| | | |
| 2. When determining prices as part of fair, and | | |
| reasonable and non-discriminatory terms and | | |
| conditions, including price, for granting access, | | |
| network operators and public sector bodies | | |
| owning or controlling physical infrastructure | | |
| shall take into account at least the following: | | |
| | | |
| (a) existing contracts and commercial | | |
| terms and conditions agreed between | | |
| operators seeking access and network | | |
| operators or public bodies granting access. | | |
| | | |
| (ab) the need to ensure that the access | | |
| provider, including the providers of associated | | |
| facilities, has a fair opportunity to recover the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|---|--|
| costs it incurs in order to provide access to its physical infrastructure, taking into account specific national conditions, business models , and any tariff structures put in place to provide a fair opportunity for cost recovery; in the case of electronic communications networks, any remedies imposed by a national regulatory authority shall also be taken into account. | | |
| (bc) the impact of the requested access on the access provider's business plan, including investments in the physical infrastructure to which the access has been requested, as well as the need to ensure that the access provider receives a fair return on its investment, which reflects the relevant market conditions and, in particular in the case of the providers of associated facilities when they operate as a wholesale only model when they are absent from any retail markets for electronic communications and which offers physical | (bc) the impact of the requested access on the access provider's business plan, including investments in the physical infrastructure to which the access has been requested, as well as the need to ensure that the access provider receives a fair return on its investment, which reflects the relevant market conditions and, in particular in the case of mere the providers of associated facilities when they operate as a wholesale only model when they are absent from any retail markets for electronic communications and which offers | GER thanks the RP for the new wording. A further slight clarification may be necessary in order to clarify, that providers of associated facilities which are at the same time • undertakings providing or authorised to provide a public telecommunications network, • undertakings within the meaning of Article 2 paragraph 1 (b) • or a public sector body are not encompassed. |

|--------------------------------|---|--|
| | to provide a public electronic communications | market for electronic communications and offer |
| | network, taking into account the view of the | access to all interested providers of public |
| | national regulatory authority on the sharing of | electronic communications networks. |
| | the relevant associated facilities in the light of Article 1 paragraph 1. | The final decision to apply pricing provisions is left to the Member States so that the proposal can be accepted by all Member States. |
| | | If a Member State decides not to impose pricing regulation on the relevant providers of associated facilities, it has to consider any view of the NRA on whether the sharing of the relevant associated facilities is efficient in the light of Article 1 para. 1. |
| | | The new addition "merely" may help to support acceptance of such a provision. The wording "merely" clarifies, that providers of associated facilities which are at the same time • undertakings providing or authorised to provide a public telecommunications network, |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--------------------------------|----------------------|--|
| | | undertakings within the meaning of Article 2 paragraph 1 (b) or a public sector body are not encompassed. |
| | | GER could also supprt the text with the |
| | | additional wording proposed by DK. The text in |
| | | the new subparagraph 3 to Article 3 (2) would |
| | | then read: |
| | | "Member States may decide not to apply pricing |
| | | regulation based on paragraphs 1 and 2 on such |
| | | undertakings merely providing or authorised to |
| | | provide certain associated facilities, when their |
| | | primary commercial activity is the provision |
| | | of access to passive physical infrastructure, |
| | | as further defined by the Member State, |
| | | when they which are absent from any retail |
| | | markets for electronic communications and |
| | | offer access to all interested undertakings |
| | | providing or authorised to provide a public |
| | | electronic communications network, taking into |

| | | |
| Transparency on physical infrastructure | | |
| | | |
| 1. In order to request access to physical | | |
| infrastructure in accordance with Article 3, any | | |
| operator shall have the right to access, upon | | |
| request, the following minimum information on | | |
| existing physical infrastructure in electronic | | |
| format via a single information point: | | |
| | | |
| (a) georeferenced location and route; | | |
| | | |
| (b) type and current use of the infrastructure; | | |
| | | |
| (c) a contact point. | | |
| | | |
| Such minimum information shall be accessible | | |
| promptly, under proportionate, non- | | |
| discriminatory and transparent terms and, in any | | |
| event no later than 15 working days after the | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| request for information is submitted. In duly | | |
| justified cases, the deadline may be extended | | |
| by 15 working days. Operators requesting | | |
| access shall be informed of the new deadline | | * // |
| via a single information point. | | |
| Any operator requesting access to information | | |
| pursuant to this Article shall specify the area in | | |
| which it envisages deploying elements of very | | |
| high capacity networks or associated facilities. | | |
| Access to the minimum information may be | | |
| limited or refused only where necessary to | | |
| ensure the security of certain buildings owned | | |
| or controlled by public sector bodies, the | | |
| security of the networks and their integrity, | | |
| national security, the security of national | | |
| critical infrastructure, public health or safety, | | |
| where physical in <u>f</u> rastructures are not | | |
| subject to access obligations according to | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|--|----------------------|----------|
| Article 3(6), or for reasons of confidentiality or | | |
| operating and business secrets. | | |
| | | |
| 2. Network operators and public sector bodies | | - // |
| shall make available promptly the minimum | | |
| information referred to in paragraph 1, via a the | | |
| single information point and in electronic | | |
| format, by and not later than 1824 months | | |
| after the entry into force of this | | |
| Regulation[DATE OF ENTRY INTO FORCE | | |
| + 12 MONTHS]. Under the same conditions, | | |
| network operators and public sector bodies shall | | |
| make available promptly any update to that | | |
| information and any new minimum information | | |
| referred to in paragraph 1. In case network | | |
| operators or public sector bodies do not | | |
| comply with the obligation set out in | | |
| paragraph 1, the competent authorities may | | |
| request within no more than 15 working days | | |
| the missing information referred in | | |
| paragraph 1 is provided made available in | | |

| independently and objectively, shall not seek | | |
| or take instructions from any other body in | | |
| relation to the exercise of the tasks assigned | | |
| to them. This shall not prevent supervision in | | |
| accordance with national law. Only | | |
| competent appeal bodies shall have the power | | |
| to suspend or overturn decisions of the | | |
| national dispute settlement bodies. | | |
| | | |
| 3. The national dispute settlement body may | | |
| charge fees to cover the costs of carrying out the | | |
| tasks assigned to it. | | |
| | | |
| 4. All parties concerned by a dispute shall | | |
| cooperate fully with the national dispute | | |
| settlement body. | | |
| | | |
| 5. The functions of a single information point | | |
| referred to in Articles 3 to 8 and 10 shall be | | |
| performed by one or more competent bodies | | |

|---|----------------------|----------|
| appointed by the Member States at national, | | |
| regional or local level, as appropriate. In order | | |
| to cover the costs of carrying out those | | |
| functions, fees may be charged for the use of the | | |
| single information points. | | |
| | | |
| 6. Paragraph 2, first subparagraph, shall apply | | |
| mutatis mutandis to the competent bodies | | |
| performing the functions of a single information | | |
| point. | | |
| | | |
| 7. The competent bodies shall exercise their | | |
| powers impartially, transparently and in a timely | | |
| manner. Member States shall ensure that they | | |
| shall have adequate technical, financial and | | |
| human resources to carry out the tasks assigned | | |
| to them. | | |
| | | |
| 8. Member States shall publish the respective | | |
| tasks to be undertaken by each competent body | | |
| via a single information point, in particular | | |

| Presidency 3rd compromise text | Drafting Suggestions | Comments |
|---|----------------------|----------|
| where those tasks are assigned to more than one | | |
| competent body or where the assigned tasks | | |
| have changed. Where appropriate, the | | |
| competent bodies shall consult and cooperate | | |
| with each other on matters of common interest. | | |
| | | |
| 9. Member States shall notify to the | | |
| Commission the identity of each competent | | |
| body in accordance with this Article for | | |
| carrying out a function under this Regulation, | | |
| and their respective responsibilities, by twelve | | |
| months after the date of entry into force of | | |
| this Regulation (DATE OF ENTRY INTO | | |
| FORCE] and any modification thereof, before | | |
| such designation or modification enters into | | |
| force. | | |
| | | |
| 10. Any decision taken by a competent body | | |
| shall be subject to an appeal, in accordance with | | |
| national law, before a fully independent appeal | | |
| body, including a body of judicial character. | | |
