Working party on Pharmaceuticals and Medical Devices: Critical Medicines Act

On the 6th of November 2025 the Working Party on Pharmaceuticals and Medical Devices will hold a full-day meeting dedicated to the proposal for a Critical Medicines Act.

In the meeting we will focus on the presentation and discussion of the Presidency's third compromise proposal for the Critical Medicines Act, as outlined in document st 14721/25.

The Presidency invites delegations to limit their interventions to their red lines and primary political concerns and to indicate whether they could support the proposed compromise text, as this will be the last dedicated discussion of the compromise text at Working Party level before discussions in Coreper on 14 November in preparation for EPSCO Health Council on 2 December.

FUN FACT OF THE WEEK

Did you know that the first great ruling queen in European history was actually Danish? Our own Queen Margaret II, who recently abdicated, chose her regnal name to honour the first Queen Margaret – a powerful monarch who ruled during the late 1300s and early 1400s.

Queen Margaret I was married to the King of Norway, and after both his death and that of their only son, she became the ruler of Denmark and Norway. She later united the Scandinavian Kingdoms by forming the Kalmar Union, a political alliance between Denmark, Norway, and Sweden that stood against the powerful Hanseatic League.
