---

Following the meeting of the Working Party on Statistics on 4 December 2024, Delegations will find in annex an updated version of the four column table used in the negotiations with the European Parliament on the proposal for a Regulation of the European Parliament and of the Council on European Union labour market statistics on businesses, repealing Council Regulation (EC) No 530/1999 and Regulations (EC) No 450/2003 and (EC) No 453/2008 of the European Parliament and of the Council.

This updated version includes the work done at the Technical Meeting on 2 December 2024.

The rows marked in green are rows that are provisionally agreed, while rows marked in yellow are still to be discussed at technical level. Rows marked in red were either not discussed in a political trilogue or discussed in a political trilogue but a common understanding could not be reached yet on the political level.

The fourth column of the rows marked in red includes ideas for a possible way forward. The attention of Delegations is drawn to the fact that negotiations are taking place under the assumption that nothing is agreed until everything is agreed.
