CONTRIBUTION

From:	General Secretariat of the Council
To:	Working Party on Energy
Subject:	EPBD: HU comments (ST 15672/23)

Delegations will find in the annex the HU comments on the revision of the Energy performance of buildings Directive (ST 15672/23).

Proposal for a DIRECTIVE OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on the energy performance of buildings (recast) (Text with EEA relevance)

HUNGARIAN Comments on the 4-column table WK 15672/2023

23.11.23.

We support the draft agreement in L42 on one-step deep renovation and staged deep renovation.

We support the draft agreement in L96 on the definition of zero emission building.

We do not support the EP mandate in L140a on the definition of pre-cabbling.

We support the Council mandate in L144 on the mortgage portfolio standards.

We do not support the EP mandate in L144a on the pay-as-you-save financial scheme.

We accept the draft agreement in L198 and L199 on the minimum energy performance requirements for buildings or building units, which says that these requirements are set with a view to at least achieving cost-optimal levels

L225a on the authorization of fossil fuel heating systems in new buildings is red line for us, we do not accept EP proposal, we support PRES to reject it.

L230b on the authorization of fossil fuel-heating systems in buildings undergoing major renovation, deep renovation or renovation of the heating system is red line for us, we do not accept EP text, we ask PRES to reject it.

We support the deletion of L242a-c.

We support the draft agreement in L244l and L244o-p on the national trajectories.

We accept the draft agreement in L255 and L257a, according to which Member States may decide not to apply the minimum energy performance standard in the defined categories of buildings.

The EP proposals **on the deployment of suitable solar energy installation in L258h-k are red line for us**, we ask PRES to keep the Council mandate, as suggested.

We agree with the deletion of L258p.

We accept the recital in L258q on encouraging measures to ensure the fire safety of solar energy installations in buildings.

We accept the draft agreement in L265a on uploading the renovation passports to the national database.

We accept the draft agreement in L268 on optimizing the energy use of technical building systems.

In L273 and L273a-f on measuring and control devices for the monitoring and regulation of indoor air quality, we ask PRES to keep the Council mandate and reject the EP proposals on further details.

In L274a on the switch from fossil-fuelled heating and cooling systems to non-fossil fuel based systems, we do not support the EP mandate. In L274b, we ask PRES to keep the Council mandate (as suggested in the 4thC)

In L274k on the monitoring of indoor environmental quality, we ask PRES to keep the Council mandate.

We do not support the EP proposal in L274p on laying down lay down requirements regarding the effective indoor environmental quality monitoring system, to ensure occupants' health and safety.

We do not support the EP mandate in L274t-y on automatic lighting controls, these are out of the scope of this Directive.

In L308, we accept the draft agreement on the content of the building systems data.

We accept the draft agreement in L312 on the deadline of the Commission to for the adoption of implementing acts.

We can accept the draft agreement in L314 on providing appropriate financing, support measures and other instruments.

We do not support EP mandate in L317c on adoption of a delegated act for mortgage portfolio standards.

We accept the draft agreement in L337a according to which Member States may define an A+ energy performance class.

We do not support EP mandate in L377a-e on efficient functioning of digital building logbooks.

We support EP mandate in L410a on the achievement of a sufficient number of professionals.

We support the draft agreement in L418 on the review of this directive in 2030 instead of 27.
