WORKING DOCUMENT

From:	General Secretariat of the Council
To:	Antici Group (Simplification)

Subject:	Additional Comments from MS on Omnibus VII (Digital Omnibus) - GDPR and P2B – written Consultation (DDL on 30/01/2026)
----------	--

Following the written consultation on Omnibus VII (Digital Omnibus) – GDPR and P2B, delegations will find Additional comments received from France.

Guidelines to be followed

Please kindly provide your contributions in the table below.

Drafting suggestions: you may use '**track changes**'* or formatting (for example **bold-underline** for additions and ~~strike-through~~ for deletions, **where necessary, in a different colour**). *Track changes can only be connected once the cursor is placed in editable areas (Drafting or Comments columns).

To make it feasible to consolidate all contributions, the structure of the table must not be changed, so **no rows can be added or deleted**.

New provisions may only be added in any of the '**existing cells**'.

Name of document: please add the **two initials** of your delegation's country followed by a space (to the MS Word document name), followed by any optional text, for example, for Austria: **AT comments ondocx**

Thank you for your cooperation!

(27) This Regulation proposes a series of targeted amendments to Regulation (EU) 2016/679 for clarification and simplification, whilst preserving the same level of data protection. Article 4 of Regulation (EU) 2016/679 provides that personal data is any information relating to an	27) This Regulation proposes a series of targeted amendments to Regulation (EU) 2016/679 for clarification and simplification, whilst preserving the same level of data protection. Article 4 of Regulation (EU) 2016/679 provides that personal data is any information relating to an	Les autorités françaises souhaitent conserver la définition actuelle de donnée personnelle, telle qu'interprétée par la CJUE dans sa jurisprudence la plus récente, tout en fournissant aux responsables de traitements et aux sous-traitants des moyens d'appliquer cette jurisprudence de la manière la plus concrète possible.

Commission proposal	Drafting suggestions	Comments
identified or identifiable natural person. In order to determine whether a natural person is identifiable, account should be taken of all the means reasonably likely to be used to identify the natural person directly or indirectly. Taking into account the case-law of the Court of Justice of the European Union concerning the definition of personal data, it is necessary to provide further clarity on when a natural person should be considered to be identifiable. The existence of additional information enabling the data subject to be identified does not, in itself, mean that pseudonymised data must be regarded as constituting, in all cases and for every person or entity, personal data for the purposes of the application of Regulation (EU) 2016/679. In particular, it should be clarified that information is not to be considered personal data for a given entity where that entity does not have means reasonably likely to be used to identify the natural person to whom the information relates. A potential subsequent transmission of that information to third parties who have means reasonably allowing them to identify the natural person to whom the information relates, such as cross-checking with other data at their disposal, renders that information personal data only for those third parties who have such means at their disposal. An entity for which the information is not personal data, in principle, does not fall within the scope of application of Regulation (EU) 2016/679. In this respect the Court of Justice of the European Union	identified or identifiable natural person. In this respect the Court of Justice of the European Union	

Commission proposal	Drafting suggestions	Comments
has held that a means of identifying the data subject is not reasonably likely to be used where the risk of identification appears in reality to be insignificant, in that the identification of that data subject is prohibited by law or impossible in practice, for example because it would involve a disproportionate effort in terms of time, cost and labour. An example of a prohibition against reidentification can be found in the obligations of health data users in Article 61(3) of Regulation (EU) 2025/327 of the European Parliament and of the Council⁴. The Commission, together with the European Data Protection Board, should support controllers in the application of this updated definition by stipulating technical criteria in an implementing act. ⁴ Regulation (EU) 2025/327 of the European Parliament and of the Council of 11 February 2025 on the European Health Data Space and amending Directive 2011/24/EU and Regulation (EU) 2024/2847 (OJ L, 2025/327, 5.3.2025, ELI: http://data.europa.eu/eli/reg/2025/327/oj)	has held that a means of identifying the data subject is not reasonably likely to be used where the risk of identification appears in reality to be insignificant, in that the identification of that data subject is prohibited by law or impossible in practice, for example because it would involve a disproportionate effort in terms of time, cost and labour. An example of a prohibition against reidentification can be found in the obligations of health data users in Article 61(3) of Regulation (EU) 2025/327 of the European Parliament and of the Council⁴. The Commission, together with the European Data Protection Board, should support controllers in the application of this updated definition case law by stipulating technical criteria in an opinion.	
(28) In order to assess whether research meets the conditions of scientific research for the purpose of this Regulation, account can be taken of elements such as methodological and systematic approach applied while conducting the research in the specific area. Research and technology	(28) In order to assess whether scientific research activities meets the conditions of scientific research for the purpose of this Regulation, it should be conducted following a account can be taken of elements such as methodological and systematic approach applied	Les autorités françaises souhaitent compléter les considérants avec des garanties supplémentaires relatives à la recherche scientifique et y incorporer des éléments de la définition proposée par la Commission qui ont plus leur place dans un considérant.

Commission proposal	Drafting suggestions	Comments
development should be conducted in academic, industry and other settings, including small and medium-sized undertakings, (Article 179(2) TFEU) and should be always of a of high quality and should adhere to the principles of principles of reliability, honesty, respect and accountability (verifiability).	while conducting the research in the specific area and in adherence to ethical standards in the relevant research field and rules for research integrity, such as the European code of conduct on research integrity, concur to public interest and well-being, prevent individuals from being subjected to harm or other adverse effects due to participating in scientific research and include – among other things – the respect for human autonomy and the notion of consent to participate in research, transparency, accountability and oversight, be reproducible and . Research and technology development should be conducted in academic, industry and other settings, including small and medium-sized undertakings, (Article 179(2) TFEU), and should be always of a of high quality and should adhere <u>to ethical standards in the relevant research field, to prevent individuals from being subjected to harm or other adverse effects due to participating in scientific research and include – among other things – the respect of</u> to the principles of principles of <u>transparency</u>, reliability, honesty, respect <u>for human autonomy, oversight</u> and accountability (verifiability), <u>reproducibility. The results, protocols and data being as open as possible, and following the FAIR principles.</u>	

Commission proposal	Drafting suggestions	Comments
	Additional recital : <u>Scientific research activities should be conducted autonomously and independently, free from undue pressure.</u> <u>These actions shall contribute to existing scientific knowledge or apply existing knowledge in novel ways, be carried out with the aim of contributing to the growth of society's general knowledge and wellbeing and adhere to ethical standards in the relevant research area.</u>	
(29) It should be reiterated that further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes should be considered to be compatible lawful processing operations. In such cases it is not necessary to ascertain on the basis of Article 6(4) of this Regulation whether the purpose of the further processing is compatible with the purpose for which the personal data are initially collected.		
(30) Trustworthy AI is key in providing for economic growth and supporting innovation with socially beneficial outcomes. The development and use of AI systems and the underlying models such as large language models and generative video models rely on data, including personal data, in		

Commission proposal	Drafting suggestions	Comments
various phases in the AI lifecycle, such as the training, testing and validation phase and may in some instances be retained in the AI system or the AI model. The processing of personal data in this context may therefore be carried out for purposes of a legitimate interest within the meaning of Article 6 of Regulation (EU) 2016/679, where appropriate. This does not affect the obligation of the controller to ensure that the development or use (deployment) of AI in a specific context or for specific purposes complies with other Union or national law, or to ensure compliance where its use is explicitly prohibited by law. It also does not affect its obligation to ensure that all other conditions of Article 6(1)(f) of Regulation (EU) 2016/679 as well as all other requirements and principles of that Regulation are met.		
(31) When the controller, in the light of the risk-based approach which informs the scalability of the obligations under this Regulation, is balancing the legitimate interest pursued by the controller or a third party and the interests, rights and freedoms of the data subject, consideration should be given to whether the interest pursued by the controller is beneficial for the data subject and society at large, which may for instance be the case where the processing of personal data is necessary for detecting and removing bias, thereby protecting data subjects from discrimination, or where the	Réserve d'examen.	

Commission proposal	Drafting suggestions	Comments
processing of personal data is aiming at ensuring accurate and safe outputs for a beneficial use, such as to improve accessibility to certain services. Consideration should also, among others, be given to reasonable expectations of the data subject based on their relationship with the controller, appropriate safeguards to minimise the impact on data subjects' rights such as providing enhanced transparency to data subjects, providing an unconditional right to object to the processing of their personal data, respecting technical indications embedded in a service limiting the use of data for AI development by third parties, the use of other state of the art privacy preserving techniques for AI training and appropriate technical measures to effectively minimise risks resulting, for example, from regurgitation, data leakage and other intended or foreseeable actions.		
(32) The processing of personal data for scientific research purposes and the application of the GDPR's provisions on scientific research are conditional on the adoption of appropriate safeguards for the rights and freedoms of data subjects, pursuant to Article 89(1) GDPR. To that end, the GDPR balances the right to protection of personal data, pursuant to Article 8 CFREU, with the freedom of science, pursuant to Article 13 CFREU. The processing of personal data for the purpose of scientific research therefore pursues a legitimate interest within the meaning of Article	Deletion	

Commission proposal	Drafting suggestions	Comments
6(1)(f) of Regulation (EU) 2016/679, provided that such research is not contrary to Union or Member State law. This is without prejudice to the obligation of the controller to ensure that all other conditions of Article 6(1)(f) of Regulation (EU) 2016/679 as well as all other requirements and principles of that Regulation are met.		
(33) The development of certain AI systems and AI models may involve the collection of large amounts of data, including personal data and special categories thereof. Special categories of personal data may residually exist in the training, testing or validation data sets or be retained in the AI system or the AI model, although the special categories of personal data are not necessary for the purpose of the processing. In order not to disproportionately hinder the development and operation of AI and taking into account the capabilities of the controller to identify and remove special categories of personal data, derogating from the prohibition on processing special categories of personal data under Article 9(2) of Regulation (EU) 2016/679 should be allowed. The derogation should only apply where the controller has implemented appropriate technical and organisational measures in an effective manner to avoid the processing of those data, takes the appropriate measures during the entire lifecycle of an AI system or AI model and, once it identifies such data, effectively remove them. If removal	Réserve d'examen.	

Commission proposal	Drafting suggestions	Comments
would require disproportionate effort, notably where the removal of special categories of data memorised in the AI system or AI model would require re-engineering the AI system or AI model, the controller should effectively protect such data from being used to infer outputs, being disclosed or otherwise made available to third parties. This derogation should not apply where the processing of special categories of personal data is necessary for the purpose of the processing. In this case, the controller should rely on the derogations pursuant to Article 9(2)(a) – (j) of Regulation (EU) 2016/679.		
(34) Biometric data, as defined in Article 4(14) of Regulation (EU) 2016/679, means processing of certain characteristics of a natural person through a specific technical means and which allows or confirms the unique identification of that person. The notion of biometric data includes two distinct functions, namely the identification of a natural person or the verification (also called authentication) of his or her claimed identity, both of which rely on different technical processes. The identification process is based on a ‘one-to-many’ search of the data subject’s biometric data in a database, while the verification process is based on a ‘one-to-one’ comparison of biometric data provided by the data subject, who is thereby claiming his or her identity. Derogating from the prohibition to process biometric data under Article	(34) Biometric data, as defined in Article 4(14) of Regulation (EU) 2016/679, means processing of certain characteristics of a natural person through a specific technical means and which allows or confirms the unique identification of that person. The notion of biometric data includes two distinct functions, namely the identification of a natural person or the verification (also called authentication) of his or her claimed identity, both of which rely on different technical processes. The identification process is based on a ‘one-to-many’ search of the data subject’s biometric data in a database, while the verification process is based on a ‘one-to-one’ comparison of biometric data provided by the data subject, who is thereby claiming his or her identity. Derogating from the prohibition to process biometric data under Article 9(1) of the Regulation should also be	

Commission proposal	Drafting suggestions	Comments
9(1) of the Regulation should also be allowed where the verification of the claimed identity of the data subject is necessary for a purpose pursued by the controller, and suitable safeguards apply to enable the data subject to have sole control of the verification process. For example, where the biometric data are securely stored solely at the side of the data subject or are securely stored at the side of the controller in a state-of-the-art encrypted form and the encryption key or equivalent means is held solely by the data subject, that processing is not likely to create significant risks to his or her fundamental rights and freedoms. The controller does not gain knowledge of the biometric data or only for a very limited time during the verification process.	allowed where the verification of the claimed identity of the data subject <u>is provided for under Union or Member States law</u> necessary for a purpose pursued by the controller, and suitable safeguards apply to enable the data subject to have sole control of the verification process. For example, where the biometric data are securely stored solely at the side of the data subject or are securely stored at the side of the controller in a state-of-the-art encrypted form and the encryption key or equivalent means is held solely by the data subject, that processing is not likely to create significant risks to his or her fundamental rights and freedoms. The controller does not gain knowledge of the biometric data or only for a very limited time during the verification process.	
(35) Article 15 of Regulation (EU) 2016/679 provides data subjects with the right to obtain from the controller confirmation as to whether or not personal data concerning him or her are being processed and, where that is the case, access to the personal data and certain additional information. The right of access should allow the data subject to be aware of, and to verify, the lawfulness of the processing and enable him or her to exercise his or her other rights under Regulation (EU) 2016/679. By contrast, it should be clarified in Article 12 of the Regulation that the right of access, which is from the outset favourable to data subjects, should not be abused in the sense that the data subjects	Réserve d'examen.	

Commission proposal	Drafting suggestions	Comments
abuse them for purposes other than the protection of their data. For example, such an abuse of the right of access would arise where the data subject intends to cause the controller to refuse an access request, in order to subsequently demand the payment of compensation, potentially under the threat of bringing a claim for damages. Other examples of abuse include situations where data subjects make excessive use of the right of access with the only intent of causing damage or harm to the controller or when an individual makes a request, but at the same time offers to withdraw it in return for some form of benefit from the controller. Moreover, in order to keep their burden to a reasonable extent, controllers should bear a lower burden of proof regarding the excessive character of a request than regarding the manifestly unfounded character of a request. The reason is that the manifestly unfounded character of a request depends on facts that lie principally within the controller's sphere of responsibility, whereas the excessive character of a request concerns the possibly abusive conduct of a data subject, which lies primarily outside the controller's sphere of influence, and therefore the controller may be able to prove such abuse only to a reasonable level. In any event, while requesting access under Article 15 of Regulation (EU) 2016/679 the data subject should be as specific as possible. Overly broad and undifferentiated requests should also be regarded as excessive.		

Commission proposal	Drafting suggestions	Comments
(36) Article 13 of Regulation (EU) 2016/679 requires the data controller to provide the data subject with certain information on the processing of his or her personal data as well as certain further information necessary to ensure fair and transparent processing, as defined in paragraphs 1, 2 and 3 of that provision. According to paragraph 4 of Article 13 of Regulation (EU) 2016/679, that obligation does not apply where and insofar as the data subject already has the information. To further reduce the burden of data controllers, without undermining the possibilities of the data subject to exercise his or her rights under Chapter III of the Regulation, this derogation should be extended to situations where the processing is not likely to result in a high risk, within the meaning of Article 35 of the Regulation, and there are reasonable grounds to assume that the data subject already has the information referred to in points (a) and (c) of paragraph 1 in the light of the context in which the personal data have been collected, in particular regarding the relationship between data subjects and the controller. These should be the situations where the context of the relationship between the controller and the data subject is very clear and circumscribed and the controller's activity is not data-intensive, such as the relationship between a craftsman and their clients, where the scope of processing is limited to the minimum data necessary to perform the service. The controller's activity is not data-intensive where it collects a low amount of personal data and its processing	(36) Article 13 of Regulation (EU) 2016/679 requires the data controller to provide the data subject with certain information on the processing of his or her personal data as well as certain further information necessary to ensure fair and transparent processing, as defined in paragraphs 1, 2 and 3 of that provision. According to paragraph 4 of Article 13 of Regulation (EU) 2016/679, that obligation does not apply where and insofar as the data subject already has the information. To further reduce the burden of data controllers, without undermining the possibilities of the data subject to exercise his or her rights under Chapter III of the Regulation, this derogation should be extended to situations where the processing is not likely to result in a high risk, within the meaning of Article 35 of the Regulation, and there are reasonable grounds to assume that the data subject already has the information referred to in points (a) and (c) of paragraph 1 in the light of the context in which the personal data have been collected, in particular regarding the relationship between data subjects and the controller. These should be the situations where the context of the relationship between the controller and the data subject is very clear and circumscribed and the controller's activity is not data-intensive, such as the relationship between a craftsman and their clients, where the scope of processing is limited to the minimum data necessary to perform the service. The controller's activity is not data-intensive where it collects a low amount of	

Commission proposal	Drafting suggestions	Comments
operations are not complex, which is not the case, for example, in the field of employment. In such circumstances, that is to say when the processing is non data-intensive, non-complex and where the controller collects a low amount of personal data, it should be reasonable to expect, for instance, that the data subject has the information on the identity and contact details of the controller as well as on the purpose of the processing when that processing is carried out for the performance of a contract to which a data subject is a party, or when the data subject has given his or her consent to that processing, in accordance with the requirements laid down in Regulation (EU) 2016/679. The same should apply to associations and sport clubs where the processing of personal data is confined to the management of membership, communication with members and the organisation of activities. Nevertheless, this derogation from the obligations of Article 13 is without prejudice to the independent obligations of the controller under Article 15 of that Regulation, which applies in case the data subject requests access based on the latter provision. Where the derogation from the obligations of Article 13 does not apply, in order to balance the need for completeness and easy understanding by the data subject, controllers may adopt a layered approach when providing the information required, notably by allowing users to navigate to further information.	personal data and its processing operations are not complex, which is not the case, for example, in the field of employment. Where the derogation from the obligations of Article 13 does not apply, in order to balance the need for completeness and easy understanding by the data subject, controllers may adopt a layered approach when providing the information required, notably by allowing users to navigate to further information.	

Commission proposal	Drafting suggestions	Comments
(37) Where the processing takes place for the purpose of scientific research and the provision of information to the data subject proves to be impossible or would involve a disproportionate effort it should not be necessary to provide the information provided for under Article 13 of this Regulation. The controller should make reasonable efforts to acquire contact details if they are readily available and acquisition would not require a disproportionate effort. The provision of the information would involve a disproportionate effort in particular where the controller at the time of collection of the personal data did not know or anticipate that it would process personal data for scientific research purposes at a later stage, in which case it may not have easily available contact details of the data subjects. In such situations the controller should inform data subjects indirectly, such as by making the information publicly available. The provision of such information should ensure that as many data subjects concerned as possible are reached. Relevant means to make the information publicly available should be determined depending on the context of the research project and the data subjects involved. of access to personal data already stored, in a terminal equipment, and subsequent processing that is necessary for those purposes, this Regulation should therefore provide that the processing is lawful. The controller, such as a media service provider, may mandate a processor, such as a market research company, to carry out the processing on its behalf.	data already stored, in a terminal equipment, and subsequent processing that is necessary for those purposes, this Regulation should therefore provide that the processing is lawful. The controller, such as a media service provider, may mandate a processor, such as a market research company, to carry out the processing on its behalf.	
For the subsequent processing of personal data for other purpose than those defined in the limitative list, Article 6 and, where relevant, Article 9 of Regulation (EU) 2016/679 should be applied. It is the responsibility of the controller in the light of the principle of accountability to choose the appropriate legal basis for the intended processing. In order to be able to rely on legitimate interest under Article 6(1), point f, of Regulation (EU) 2016/679 as a ground for the subsequent processing of personal data, the controller must show that it pursues the controller's or third parties' legitimate interest, the processing is necessary in order to achieve the purpose of that legitimate interest, and the interests or fundamental rights of the data subject do not override the interests pursued by the controller. In this context, controllers should take outmost account of the following elements: whether the data subject is a child; the reasonable expectations of data subject; the impact on the individual either because of the scale of data processed or the sensitivity of the data	Réserve d'examen.	Même commentaire que précédemment. Réserve sur ce considérant qui concerne, lui, les traitements de données subséquents, mais qui devrait correspondre à l'article 6 et à l'article 9 relatifs aux bases légales des traitements de données à caractère personnel.

Commission proposal	Drafting suggestions	Comments
processed; the scale of the processing at issue in the sense that the processing cannot be particularly extensive either because of their amount or the range of categories of data; the processing should be based on data limited to what is necessary and cannot be based on monitoring of large parts of the online activity of the data subjects; and other relevant factors as appropriate. The processing should not give rise to the continuous monitoring of the data subject's private life.		
Where the controller cannot rely on legitimate interest as a legal ground for the subsequent processing, the processing should be based on another ground in Article 6(1), in particular on consent in accordance with Articles 6 and 7 of Regulation (EU) 2016/679, provided that all principles of Regulation (EU) 2016/679 are met.	Idem, réserve d'examen.	Les autorités françaises s'interrogent sur l'apport de ce considérant par rapport aux dispositions déjà existantes sur les bases légales des traitements.
(45) Data subjects that have refused a request for consent are often confronted with a new request to give consent each time they visit the same controller's online service again. This may have detrimental effects to the data subjects which may consent just in order to avoid repeating requests. The controller should therefore be obliged to respect the data subject's choices to refuse a request for consent for at least a certain period.	(45) — Data subjects that have refused a request for consent are often confronted with a new request to give consent each time they visit the same controller's online service again. Idem, cette disposition vise le dépôt de cookies et non le traitement de données.

Commission proposal	Drafting suggestions	Comments
(46) Data subjects should have the possibility to rely on automated and machine-readable indications of their choice to consent or refuse a consent request or object to the processing of data. Such means should follow the state of the art. They can be implemented in the settings of a web browser or in the EU Digital Identity Wallet as set out by Regulation (EU) 914/2014, or any other adequate means. Rules set out in this Regulation should support the emergence of market-driven solutions with appropriate interfaces. The controller should be obliged to respect automated and machine-readable indications of data subject's choices once there are available standards. In light of the importance of independent journalism in a democratic society and in order not to undermine the economic basis for that, media service providers should not be obliged to respect the machine-readable indications of data subject's choices. The obligation for providers of web browsers to provide the technical means for data subjects to make choices with respect to the processing should not undermine the possibility for media service providers to request consent by data subjects. Regulation (EU) 2016/679 in relation to processing of personal data in the context of electronic communication services. It protects the privacy and the integrity of user's or subscriber's terminal equipment used for such communications. The current provision of Article 5(3) of Directive 2002/58/EC should remain applicable insofar as the subscriber or user is not a natural person, and the information stored or accessed does not constitute or lead to the processing of personal data.	specifies Regulation (EU) 2016/679 in relation to processing of personal data in the context of electronic communication services. It protects the privacy and the integrity of user's or subscriber's terminal equipment used for such communications. The current provision of Article 5(3) of Directive 2002/58/EC should remain applicable insofar as the subscriber or user is not a natural person, and the information stored or accessed does not constitute or lead to the processing of personal data.	
(48) Article 4 of Directive 2002/58/EC should be repealed. Article 4 of Directive 2002/58/EC sets requirements for providers of publicly available electronic communications services as regards safeguarding the security of their services and notification requirements. Subsequently, Directive (EU) 2022/2555 has set new requirements as regards cybersecurity risk-management measures and incident reporting for those providers. In order to reduce overlapping obligations for entities in the electronic communications sector, Article 4 of Directive 2002/58/EC should be repealed. As regards the security of processing of personal data pursuant to Article 4(1) and (1a) of this directive and the notification of personal data breaches pursuant to Article 4(3) to (5) of Directive 2002/58/EC this directive, the Regulation (EU) 2016/679 already provide for comprehensive and up-to-date rules. These rules should therefore		

Commission proposal	Drafting suggestions	Comments
apply to providers of publicly available electronic communication services and providers of public communications networks, thereby ensuring that one regime applies to the controllers and processors.

(b) refuse to act on the request.		
The controller shall bear the burden of demonstrating that the request is manifestly unfounded or that there are reasonable grounds to believe that it is excessive.'	Réserve d'examen.	
5. In Article 13, paragraph 4 is replaced by the following:		
'4. Paragraphs 1, 2 and 3 shall not apply where the personal data have been collected in the context of a clear and circumscribed relationship between data subjects and a controller exercising an activity that is not data-intensive and there are reasonable grounds to assume that the data subject already has the information referred to in points (a) and (c) of paragraph 1, unless the controller transmits the data to other recipients or categories of recipients, transfers the data to a third country, carries out automated decision-making, including profiling, referred to in Article 22(1), or the processing is likely to result in a high risk to the rights and freedoms of data subjects within the meaning of Article 35.'		
6. In Article 13, paragraph 5 is added:		

Commission proposal	Drafting suggestions	Comments
‘5. When the processing takes place for scientific research purposes and the provision of information referred to under paragraphs 1, 2 and 3 proves impossible or would involve a disproportionate effort subject to the conditions and safeguards referred to in Article 89(1) or in so far as the obligation referred to in paragraph 1 of this Article is likely to render impossible or seriously impair the achievement of the objectives of that processing, the controller does not need to provide the information referred to under paragraphs 1, 2 and 3. In such cases the controller shall take appropriate measures to protect the data subject's rights and freedoms and legitimate interests, including making the information publicly available.’	‘5. When the further processing by the same controller takes place for scientific research purposes and the provision of information referred to under paragraphs 1, 2 and 3 proves impossible or would involve a disproportionate effort subject to the conditions and safeguards referred to in Article 89(1) or in so far as the obligation referred to in paragraph 1 of this Article is likely to render impossible or seriously impair the achievement of the objectives of that further processing, and subject to the conditions and safeguards referred to in Article 89(1), the controller does not need to provide the information referred to under paragraphs 1, 2 and 3. In such cases the controller shall take appropriate measures to protect the data subject's rights and freedoms and legitimate interests, including making the information publicly available.’	Comme indiqué au sujet du considérant correspondant, les autorités françaises sont défavorables à restreindre le droit d’information lorsque les données sont collectées directement auprès de la personne concernée. Dans ce cas, le responsable de traitement est en mesure d’informer les personnes au moment de la collecte.
7. In Article 22, paragraphs 1 and 2 are replaced by the following:		
‘1. A decision which produces legal effects for a data subject or similarly significantly affects him or her may be based solely on automated processing, including profiling, only where that decision:	1. The data subject shall have the right not to be subject to a decision based solely on automated processing, including profiling, which 1. A decision which produces legal effects for a data subject concerning him or her or similarly significantly affects him or her. may be based	Les autorités françaises souhaitent maintenir la rédaction actuelle de l’article 22 et le principe d’une interdiction, assortie d’une dérogation.

Commission proposal	Drafting suggestions	Comments
	solely on automated processing, including profiling, only where that decision:	
	2. Paragraph 1 shall not apply if the decision:	
(a) is necessary for entering into, or performance of, a contract between the data subject and a data controller regardless of whether the decision could be taken otherwise than by solely automated means;	(a) is necessary for entering into, or performance of, a contract between the data subject and a data controller regardless of whether the decision could be taken otherwise than by solely automated means;	Les autorités françaises sont défavorables à ouvrir cette alternative.
(b) is authorised by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's rights and freedoms and legitimate interests; or		
(c) is based on the data subject's explicit consent.'		
8. Article 33 is amended as follows:		
(a) paragraph 1 is replaced by the following:		
'1. In the case of a personal data breach that is likely to result in a high risk to the rights and freedoms of natural persons, the controller shall		

Commission proposal	Drafting suggestions	Comments
without undue delay and, where feasible, not later than 96 hours after having become aware of it, notify the personal data breach via the single-entry point established pursuant to Article 23a of Directive (EU) 2022/2555 to the supervisory authority competent in accordance with Article 55 and Article 56. Where the notification to the supervisory authority is not made within 96 hours, it shall be accompanied by reasons for the delay.’		
(b) the following paragraph is added:		
‘1a. Until the establishment of the single-entry point pursuant to Article 23a of Directive (EU) 2022/2555, controllers shall continue to notify personal data breaches directly to the competent supervisory authority in accordance with Article 55 and Article 56.’		
(c) the following paragraphs are added:		
‘6. The Board shall prepare and transmit to the Commission a proposal for a common template for notifying a personal data breach to the competent supervisory authority referred to in paragraph 1 as well as for a list of the circumstances in which a personal data breach is likely to result in a high risk to the rights and freedoms of a natural person. The proposals shall be submitted to the Commission	‘6. The Board shall prepare and transmit to the Commission a proposal for a common template for notifying a personal data breach to the competent supervisory authority referred to in paragraph 1 as well as for a list of the circumstances in which a personal data breach is likely to result in a high risk to the rights and freedoms of a natural person.	Les autorités françaises sont favorables à l’adoption d’un formulaire commun. En revanche, les critères doivent être définis par le Comité. Ses tâches sont ajustées en conséquence ci-dessous.

'Article 88a	Deletion.	Même commentaire que supra, les dispositions de la Directive ePrivacy n'ont pas vocation à intégrer le RGPD qui concerne les règles applicables aux traitements de données, et pas celles applicables aux opérations techniques pouvant conduire au traitement subséquent de données à caractère personnel.
<i>Processing of personal data in the terminal equipment of natural persons</i>	Deletion.	
(1) Storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person is only allowed when that person has given his or her consent, in accordance with this Regulation.	Deletion.	

Commission proposal	Drafting suggestions	Comments
(2) Paragraph 1 does not preclude storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person, based on Union or Member State law within the meaning of, and subject to the conditions of Article 6, to safeguard the objectives referred to in Article 23(1).	Deletion.	
(3) Storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person without consent, and subsequent processing, shall be lawful to the extent it is necessary for any of the following:	Deletion.	Les autorités françaises sont néanmoins favorables à étudier ces propositions d'assouplissements mais dans le contexte de la Directive ePrivacy ou d'un autre instrument.
(a) carrying out the transmission of an electronic communication over an electronic communications network;	Deletion.	
(b) providing a service explicitly requested by the data subject;	Deletion.	
(c) creating aggregated information about the usage of an online service to measure the audience of such a service, where it is carried out by the controller of that online service solely for its own use;	Deletion.	

Commission proposal	Drafting suggestions	Comments
(d) maintaining or restoring the security of a service provided by the controller and requested by the data subject or the terminal equipment used for the provision of such service.	Deletion.	
(4) Where storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person is based on consent, the following shall apply:	Deletion.	
(a) the data subject shall be able to refuse requests for consent in an easy and intelligible manner with a single-click button or equivalent means;	Deletion.	
(b) if the data subject gives consent, the controller shall not make a new request for consent for the same purpose for the period during which the controller can lawfully rely on the consent of the data subject;	Deletion.	
(c) if the data subject declines a request for consent, the controller shall not make a new request for consent for the same purpose for a period of at least six months.	Deletion.	

Commission proposal	Drafting suggestions	Comments
This paragraph also applies to the subsequent processing of personal data based on consent.	Deletion.	
(5) This Article shall apply from [OP: please insert the date = 6 months following the date of entry into force of this Regulation]	Deletion.	
Article 88b	Deletion.	Même commentaire que supra, les dispositions de la Directive ePrivacy n'ont pas vocation à intégrer le RGPD qui concerne les règles applicables aux traitements de données, et pas celles applicables aux opérations techniques pouvant conduire au traitement subséquent de données à caractère personnel.
<i>Automated and machine-readable indications of data subject's choices with respect to processing of personal data in the terminal equipment of natural persons</i>	Deletion.	
(1) Controllers shall ensure that their online interfaces allow data subjects to:	Deletion.	
(a) Give consent through automated and machine-readable means, provided that the conditions for consent laid down in this Regulation are fulfilled;	Deletion.	

Commission proposal	Drafting suggestions	Comments
(b) decline a request for consent and exercise the right to object pursuant to Article 21(2) through automated and machine-readable means.	Deletion.	
(2) Controllers shall respect the choices made by data subjects in accordance with paragraph 1.	Deletion.	
(3) Paragraphs 1 and 2 shall not apply to controllers that are media service providers when providing a media service.	Deletion.	
(4) The Commission shall, in accordance with Article 10(1) of Regulation (EU) 1025/2012, request one or more European standardisation organisations to draft standards for the interpretation of machine-readable indications of data subjects' choices.	Deletion.	
Online interfaces of controllers which are in conformity with harmonised standards or parts thereof the references of which have been published in the <i>Official Journal of the European Union</i> shall be presumed to be in conformity with the requirements covered by those standards or parts thereof, set out in paragraph 1.	Deletion.	

Commission proposal	Drafting suggestions	Comments
(5) Paragraphs 1 and 2 shall apply from [OP: please insert the date = 24 months following the date of entry into force of this Regulation].	Deletion.	
(6) Providers of web browsers, which are not SMEs, shall provide the technical means to allow data subjects to give their consent and to refuse a request for consent and exercise the right to object pursuant to Article 21(2) through the automated and machine-readable means referred to in paragraph 1 of this Article, as applied pursuant to paragraphs 2 to 5 of this Article.	Deletion.	
(7) Paragraph 6 shall apply from [OP: please insert the date = 48 months following the date of entry into force of this Regulation].	Deletion.	
Article 88c		
<i>Processing in the context of the development and operation of AI</i>		
Where the processing of personal data is necessary for the interests of the controller in the context of the development and operation of an AI system as defined in Article 3, point (1), of Regulation (EU) 2024/1689 or an AI model, such processing may be	Réserve d'examen.	

Commission proposal	Drafting suggestions	Comments
pursued for legitimate interests within the meaning of Article 6(1)(f) of Regulation (EU) 2016/679, where appropriate, except where other Union or national laws explicitly require consent, and where such interests are overridden by the interests, or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child.		
Any such processing shall be subject to appropriate organisational, technical measures and safeguards for the rights and freedoms of the data subject, such as to ensure respect of data minimisation during the stage of selection of sources and the training and testing of AI an system or AI model, to protect against non-disclosure of residually retained data in the AI system or AI model to ensure enhanced transparency to data subjects and providing data subjects with an unconditional right to object to the processing of their personal data.'	Réserve d'examen.	
<i>Article 4</i>		
<i>Amendments to Regulation (EU) 2018/1725 (EUDPR)</i>		Par cohérence avec les amendements proposés supra, ceux-ci sont reportés pour le CEPD ici.
Regulation (EU) 2018/1725 is amended as follows:		

Commission proposal	Drafting suggestions	Comments
1. Article 3 is amended as follows:		
(a) in point 1, the following sentences are added:		
‘Information relating to a natural person is not necessarily personal data for every other person or entity, merely because another entity can identify that natural person. Information shall not be personal for a given entity where that entity cannot identify the natural person to whom the information relates, taking into account the means reasonably likely to be used by that entity. Such information does not become personal for that entity merely because a potential subsequent recipient has means reasonably likely to be used to identify the natural person to whom the information relates.’	‘Information relating to a natural person is not necessarily personal data for every other person or entity, merely because another entity can identify that natural person. Information shall not be personal for a given entity where that entity cannot identify the natural person to whom the information relates, taking into account the means reasonably likely to be used by that entity. Such information does not become personal for that entity merely because a potential subsequent recipient has means reasonably likely to be used to identify the natural person to whom the information relates.’	
(b) point 25 is replaced by the following:		
‘(25) for ‘electronic communications networks’ the definition of Article 2(1) of Directive (EU) 2018/1972 shall apply;’		
(c) the following points are added:		

Commission proposal	Drafting suggestions	Comments
‘(27) ‘mobile application’ means a mobile application as defined in Article 3(2) of Directive (EU) 2016/2102;		
(28) ‘online interface’ means an online interface as defined in Article 3(m) of Regulation (EU) 2022/2065;		
(29) “scientific research” means any research which can also support innovation, such as technological development and demonstration. These actions shall contribute to existing scientific knowledge or apply existing knowledge in novel ways, be carried out with the aim of contributing to the growth of society’s general knowledge and wellbeing and adhere to ethical standards in the relevant research area. This does not exclude that the research may also aim to further a commercial interest.’	(29) “scientific research” means any <u>public or private</u> research <u>project set up in accordance with relevant sector-related methodological and ethical standards</u> which <u>may</u> can also support innovation, such as technological development and demonstration. <u>This does not exclude that the research may also aim further at a commercial interest.</u> These actions shall contribute to existing scientific knowledge or apply existing knowledge in novel ways, be carried out with the aim of contributing to the growth of society’s general knowledge and wellbeing and adhere to ethical standards in the relevant research area. This does not exclude that the research may also aim to further a commercial interest.’	En cohérence avec la définition supra.
2. Article 4 (1)(b) is replaced by the following:		

Commission proposal	Drafting suggestions	Comments
‘(b) collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall, in accordance with Article 13, be considered to be compatible with the initial purposes, independent of the conditions of Article 6 of this Regulation, (‘purpose limitation’);’	‘(b) collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall, in accordance with Article 89(1), not be considered to be in compatible with the initial purposes, independent of the conditions of Article 6(4) of this Regulation, (‘purpose limitation’);’	
3. Article 10 is amended as follows:		
(a) in paragraph 2, the following points are added:		
‘(k) processing in the context of the development and operation of an AI system as defined in Article 3, point (1), of Regulation (EU) 2024/1689 or an AI model, subject to the conditions referred to in paragraph 4. -		
(l) processing of biometric data is necessary for the purpose of confirming the identity of a data subject (verification), where the biometric data or the means needed for the verification is under the sole control of the data subject.’	(l) processing of biometric data is necessary for the purpose of confirming the identity of a data subject (verification), where the biometric data or the means needed for the verification is under the sole control of the data subject and in so far as it is authorised by Union or Member State law	

Commission proposal	Drafting suggestions	Comments
	<u>providing for appropriate safeguards for the fundamental rights and the interests of the data subject.</u>	
(b) the following paragraph 4 is added:		
‘4. For processing referred to in point (k) of paragraph 2, appropriate organisational and technical measures shall be implemented to avoid the collection and otherwise processing of special categories of personal data. Where, despite the implementation of such measures, the controller identifies special categories of personal data in the datasets used for training, testing or validation or in the AI system or AI model, the controller shall remove such data. If removal of those data requires disproportionate effort, the controller shall in any event effectively protect without undue delay such data from being used to produce outputs, from being disclosed or otherwise made available to third parties.’	4. For processing referred to in point (k) of paragraph 2, appropriate organisational and technical measures shall be implemented to avoid the collection and otherwise processing of special categories of personal data. Where, despite the implementation of such measures, the controller identifies special categories of personal data in the datasets used for training, testing or validation or in the AI system or AI model, the controller shall remove such data. If removal of those data requires disproportionate effort, the controller shall in any event effectively protect without undue delay such data from being used to produce outputs, from being disclosed or otherwise made available to third parties.’	
4. in Article 14, paragraph 5 is replaced by the following:		
‘5. Information provided under Articles 15 and 16 and any communication and any actions taken under Articles 17 to 24 and 35 shall be provided free of charge. Where requests from a data subject	5. Information provided under Articles 13 and 14 and any communication and any actions taken under Articles 15 to 22 and 34 shall be provided free of charge. Where requests from a data subject	

Commission proposal	Drafting suggestions	Comments
are manifestly unfounded or excessive, in particular because of their repetitive character or also, for requests under Article 17 because the data subject abuses the rights conferred by this Regulation for purposes other than the protection of their data, the controller may refuse to act on the request. The controller shall bear the burden of demonstrating that the request is manifestly unfounded or that there are reasonable grounds to believe that it is excessive.'	are manifestly unfounded or excessive, in particular because of their repetitive character or also, for requests under Article 15 because the data subject abuses the rights conferred by this regulation for purposes other than the protection of their data <u>which adversely affects a judicial procedure</u> , the controller may either:	
5. in Article 15 the new paragraph 5 is added:		
'5. When the processing takes place for scientific research purposes and the provision of information referred to under paragraphs 1, 2 and 3 proves impossible or would involve a disproportionate effort subject to the conditions and safeguards referred to in Article 13 or in so far as the obligation referred to in paragraph 1 of this Article is likely to render impossible or seriously impair the achievement of the objectives of that processing, the controller does not need to provide the information referred to under paragraphs 1, 2 and 3. In such cases the controller shall take appropriate measures to protect the data subject's rights and freedoms and legitimate interests, including making the information publicly available.'	Deletion.	

Commission proposal	Drafting suggestions	Comments
6. in Article 24 paragraphs 1 and 2 are replaced by the following:		
‘1. A decision which produces legal effects for a data subject or similarly significantly affects him or her may be based solely on automated processing, including profiling, only where that decision:	1. The data subject shall have the right not to be subject to a decision based solely on automated processing, including profiling, which 1. A decision which produces legal effects for a data subject concerning him or her or similarly significantly affects him or her. may be based solely on automated processing, including profiling, only where that decision:	
	2. Paragraph 1 shall not apply if the decision:	
(a) is necessary for entering into, or performance of, a contract between the data subject and a data controller regardless of whether the decision could be taken otherwise than by solely automated means;	(a) is necessary for entering into, or performance of, a contract between the data subject and a data controller regardless of whether the decision could be taken otherwise than by solely automated means;	
(b) is authorised by Union law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's rights and freedoms and legitimate interests; or		
(c) is based on the data subject's explicit consent.’		

Commission proposal	Drafting suggestions	Comments
7. in Article 34, paragraph 1 is replaced by the following		
‘1. In the case of a personal data breach that is likely to result in a high risk to the rights and freedoms of natural persons, the controller shall without undue delay and, where feasible, not later than 96 hours after having become aware of it, notify the personal data breach to the European Data Protection Supervisor. Where the notification to the European Data Protection Supervisor is not made within 96 hours, it shall be accompanied by reasons for the delay.’		
8. In Article 37 the following paragraphs are added:		
‘(2) Storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person is only allowed when that person has given his or her consent, in accordance with this Regulation.	Deletion.	
(3) Paragraph 1 does not preclude storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person, based on Union law within the meaning of, and subject to the conditions of Article	Deletion.

5, to safeguard the objectives referred to in Article 25(1).		
(4) Storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person without consent, and subsequent processing, shall be lawful to the extent it is necessary for any of the following:	Deletion.	
(a) carrying out the transmission of an electronic communication over an electronic communications network;	Deletion.	
(b) providing a service explicitly requested by the data subject;	Deletion.	
(c) creating aggregated information about the usage of an online service to measure the audience of such a service, where it is carried out by the controller of that online service solely for its own use;	Deletion.	
(d) maintaining or restoring the security of a service provided by the controller and requested by the data subject or the terminal equipment used for the provision of such service.	Deletion.	

Commission proposal	Drafting suggestions	Comments
(5) Where storing of personal data, or gaining of access to personal data already stored, in the terminal equipment of a natural person is based on consent, the following shall apply:	Deletion.	
(a) the data subject shall be able to refuse requests for consent in an easy and intelligible manner with a single-click button or equivalent means;	Deletion.	
(b) if the data subject gives consent, the controller shall not make a new request for consent for the same purpose for the period during which the controller can lawfully rely on the consent of the data subject;	Deletion.	
(c) if the data subject declines a request for consent, the controller shall not make a new request for consent for the same purpose for a period of at least six months.	Deletion.	
This paragraph also applies to the subsequent processing of personal data based on consent.	Deletion.	
(6) This Article shall apply from [OP: please insert the date = 6 months following the date of entry into force of this Regulation]]	Deletion.	

Commission proposal	Drafting suggestions	Comments
(7) Controllers shall ensure that their online interfaces allow data subjects to:	Deletion.	
(a) give consent through automated and machine-readable means, provided that the conditions for consent laid down in this Regulation are fulfilled;	Deletion.	
(b) decline a request for consent through automated and machine-readable means.	Deletion.	
(8) Controllers shall respect the choices made by data subjects in accordance with paragraph 7.	Deletion.	
(9) Online interfaces of controllers which are in conformity with harmonised standards or parts thereof referred to in paragraph 4 of Article 88b of Regulation (EC) 2016/679 shall be presumed to be in conformity with the requirements covered by those standards or parts thereof, set out in paragraph 7.	Deletion.	
(10) Paragraphs 7 to 9 shall apply from [OP: please insert the date = 24 months following the date of entry into force of this Regulation].	Deletion.	
(8) Article 39 is amended as follows:		

Commission proposal	Drafting suggestions	Comments
(a) Paragraph 4 is replaced by the following:		
‘4. The lists, the template and methodology adopted by the Commission and referred to in paragraph 6a of Article 35 of Regulation (EU) 2016/679 should apply to the processing of personal data under this Regulation.’	‘4. The lists, the template and methodology adopted by the Commission European Data Protection Board and referred to in paragraph 6a of Article 35 of Regulation (EU) 2016/679 should apply to the processing of personal data under this Regulation.’	
(b) Paragraphs 5 and 6 are deleted.		
(9) the following article is added:		
‘Article 45a		
The common criteria adopted by the Commission and referred to in article 41a of the Regulation (EU) 2016/679 should apply to the processing of personal data under this Regulation.’	The common criteria adopted by the Commission European Data Protection Board and referred to in article 41a of the Regulation (EU) 2016/679 should apply to the processing of personal data under this Regulation.’	
<i>Article 5</i>		
<i>Amendments to and Directive 2002/58/EC (ePrivacy Directive)</i>		

Commission proposal	Drafting suggestions	Comments
Directive 2002/58/EC is amended as follows:		
1. Article 4 is deleted;		
2. After Article 5(3), the following subparagraph is added:		
‘This paragraph shall not apply if the subscriber or user is a natural person, and the information stored or accessed constitutes or leads to the processing of personal data.’	Deletion.	
[...]		
<i>Article 10</i>		
<i>Repeals and transitory clauses</i>		
1. Regulation 2019/1150/EU is repealed with effect from [date = entry into application of this Regulation].		

Commission proposal	Drafting suggestions	Comments
2. By way of derogation from paragraph 1, the following provisions shall continue to apply until 31 December 2032:		
(a) Article 2, point (1);		
(b) Article 2, point (2);
