Flash – Working Party on Technical Harmonisation (Dangerous Substances - Fertilisers)

15 March 2023

Dear colleagues,

We are happy to welcome you to our first meeting of the Working Party on Technical Harmonisation (Dangerous Substances – Fertilisers), dedicated to the proposal on digital labelling of EU fertilising products.

This **morning (only) meeting** will take place on **15 March** at **10:00** in the Council Building.

During this meeting, the Member States will receive a presentation of the Commission's proposal for **amending Regulation (EU) 2019/1009 as regards the digital labelling of EU fertilising products** and its **impact assessment**. Member States will also be able to ask questions and share their initial reactions.

The proposal and the impact assessment are available in the Delegates Portal (ST 6896/23 + ADD 1-4). As a tool for Member States in their own examinations, the usual checklist has also been shared in the Delegates Portal (WK 2206/2023).

We look forward to seeing you on the 15th of March!

Swedish Presidency Tech Harm team
