**REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

**amending Regulation (EU) 2018/196 of the European Parliament and of the Council of 7 February 2018 on additional customs duties on imports of certain products originating in the United States of America**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 207(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) On 27 January 2003, the Dispute Settlement Body ('DSB') of the World Trade Organization ('WTO') adopted the Appellate Body report<sup>1</sup> and the Panel report<sup>2</sup>, as upheld by the Appellate Body report, finding that the Continued Dumping and Subsidy Offset Act ('CDSOA') was incompatible with the United States' obligations under the WTO agreements.
- (2) Since the United States failed to bring its legislation into conformity with the WTO agreements, the European Community ('Community') requested authorisation from the DSB to suspend the application of its tariff concessions and related obligations under the General Agreement on Tariffs and Trade ('GATT') 1994 to the United States<sup>3</sup>. The United States objected to the level of suspension of tariff concessions and related obligations, and the matter was referred to arbitration.
- (3) On 31 August 2004, the Arbitrator determined that the level of nullification or impairment caused every year to the Community was equal to 72 % of the amount of CDSOA disbursements relating to anti-dumping or countervailing duties paid on imports from the Community for the most recent year for which data were available at that time, as published by the United States' authorities. The Arbitrator concluded that the suspension by the Community of concessions or other obligations, in the form of the imposition of an additional import duty above bound custom duties, on a list of products originating in the United States covering, on a yearly basis, a total value of trade not exceeding the amount of nullification or impairment would be consistent with WTO rules. On 26 November 2004, the DSB granted the authorisation to suspend the

application to the United States of tariff concessions and related obligations under GATT 1994 in accordance with the decision of the Arbitrator.

- (4) As a result of the United States' failure to bring the CDSOA in compliance with its obligations under the WTO agreements, pursuant to Regulation (EU) 2018/196 of the European Parliament and of the Council<sup>4</sup> a 4,3 % *ad valorem* additional customs duty was imposed on imports of certain products originating in the United States. In conformity with the WTO authorisation to suspend the application of concessions to the United States, the Commission is to adjust the level of suspension annually to the level of nullification or impairment caused by the CDSOA to the Union at that time.
- (5) In recent years, the level of nullification or impairment caused to the Union on the basis of the data published by the United States' Customs and Border Protection has decreased. For example, in 2024, it was calculated at USD 34,98 resulting in a rate of additional import duty of 0,00002 %. As collecting this additional import duty would have no trade effect but result in a disproportionate administrative cost for the Union, the rate of additional import duty was set at 0 % by Commission Delegated Regulation (EU) 2024/1239<sup>5</sup>, which amended Regulation (EU) 2018/196 accordingly.
- (6) Given that the CDSOA was effectively repealed on 1 October 2007, it is expected that the level of nullification or impairment and, consequently, of suspension will stay at this significantly decreased and economically negligible level.
- (7) To ensure efficient processes and avoid disproportionate administrative costs for the Union, Regulation (EU) 2018/196 should be amended by including a *de minimis* threshold below which ~~no-the~~ additional import duty should be ~~imposed~~suspended, and the Commission should not be required to adjust the level of suspension.
- (8) The *de minimis* threshold should be set at USD 30 000 of disbursements under the CDSOA relating to anti-dumping and countervailing duties paid on imports from the Union for the most recent year for which data are available at that time, as published by the United States' authorities (U.S. Customs and Border Protection). Below such threshold, the additional import duty, as resulting from the formula mandated by the WTO authorisation, would have no trade impact and would thus be economically negligible. It would also cause disproportionate administrative costs for the Union.
- (9) Additionally, Article 3(3) of Regulation (EU) 2018/196 should be amended and aligned to the standard clauses contained in the Interinstitutional Agreement on Better Law-Making<sup>6</sup>.
- (10) In order to avoid disproportionate administrative effort and allow for the prompt application of the envisaged derogation by the Commission, this Regulation should enter into force on the day following that of its publication in the *Official Journal of the European Union*.

<sup>5</sup> Commission Delegated Regulation (EU) 2024/1239 of 22 February 2024 amending Regulation (EU) 2018/196 of the European Parliament and of the Council on additional customs duties on imports of certain products originating in the United States of America (OJ L, 2024/1239, 29.4.2024, ELI: [http://data.europa.eu/eli/reg\\_del/2024/1239/oj](http://data.europa.eu/eli/reg_del/2024/1239/oj)).

(119) Regulation (EU) 2018/196 should therefore be amended accordingly,  
HAVE ADOPTED THIS REGULATION:
