PUBLIC

Justification, please

Council decision on redressive measures instead of Commission decision **needs justification:**

(required by the case-law - Article 291(2) TFEU - “in duly justified specific cases”)

- how it risks affecting negatively the connectivity?
- how important connectivity is, especially for some Member States?
- how does it can affect bilateral relations?
- how does it affect traffic rights, if the traffic rights are excluded?
- how the Council adopting the measures will help to avoid these problems?

The reasons provided in the recital shall be valid for both tracks (if for both tracks Council shall adopt the redressive measures)
