MEETING DOCUMENT

From: To:	General Secretariat of the Council Working Party on Telecommunications and Information Society
Subject:	IE comments "Draft Council Conclusions on the Future of Digital Policy" (st 7619/24 Macro table)

Delegations will find in the annex the IE comments on "Draft Council Conclusions on the Future of Digital Policy". (st 7619/24)

First compromise proposal st 7619/24	Drafting Suggestions	Comments
FUTURE OF EU DIGITAL POLICY		
THE COUNCIL OF THE EUROPEAN		
UNION,		*
		J.
RECALLING		
- The Council conclusions of 7 June 2019		
on the future of a highly digitized Europe		
beyond 2020 entitled "Boosting digital and		
economic competitiveness across the Union and		
digital cohesion",		
- The Commission Communication of 18		
19 February 2020 on A European strategy for		
data,		
- The Council conclusions of 5 June 2020		
on Shaping Europe's digital future,		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
— The Declaration of 8 December 2020 on		
Digital Society and Value-Based Digital		
Government,		
- The Council conclusions of 11 December		
2020 on Digitalisation for the Benefit of the		
Environment on 11 December 2020,		
— The Ministerial Declaration of 19 March		
2021 on A Green and Digital Transformation of		
the EU,		
- The Commission Communication of 21		
April 2021 on Fostering a European approach to		
Artificial Intelligence, and its Annex entitled		
"Coordinated Plan on Artificial Intelligence		
2021 Revision",		
- The Commission Communication of 2		
February 2022 on An EU Strategy on		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
Standardisation Setting global standards in		
support of a resilient, green and digital EU		
single market,		
- <u>The Commission Communication of 11</u>		
May 2022 on A Digital Decade for children and		
youth: the new European strategy for a better		
internet for kids (BIK+),		
The Declaration of June 2022 'Toulouse		
Call for a Green and Digital Transition in the		
EU',		
The Decision of the European Parliament		
and of the Council of 14 December 2022		
establishing the Digital Decade Policy		
Programme 2030 (hereafter 'Digital Decade		
Policy Programme') and the Commission		
Communication of 27 September 2023 on the		
State of the Digital Decade 2023,		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
The European Declaration on Digital		
Rights and Principles for the Digital Decade of		
23 January 2023,		
- The Council conclusions of 13 March		
2023 on competitiveness, single market and the		
economy,		
The Decision of the European Parliament		
and of the Council of 10 May 2023 on a		
European Year of Skills,		
- The Commission Communication of 15		
June 2023 on the implementing of the 5G		
Cybersecurity toolbox,		
- The Joint Communication of 20 June 2023		
on a European Economic Security Strategy,		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
- The Council conclusions of 18 July 2022		
and of 26 June 2023 on EU Digital Diplomacy,		
- The Commission Communication of 11		- //
July 2023 on An EU initiative on Web 4.0 and		
virtual worlds: a head start in the next		
technological transformation,		
The Commission Recommendation of 3		
October 2023 on critical technology areas for		
the EU's economic security for further risk		
assessment with Member States.		
- The Council Recommendation of 23		
November 2023 on improving the provision of		
digital skills and competences in education and		
training,		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
The Commission AI innovation package		
of 24 January 2024 to support Artificial		
Intelligence startups and SMEs,		
- The White Paper of 21 February 2024 on		
How to master Europe's digital infrastructure		
needs?,		
- The Commission Recommendation of 26		
February 2024 on Secure and Resilient		
Submarine Cable Infrastructures,		
- [The Council conclusions on the future of		
cybersecurity]		
The Council of the European Union		
1. UNDERLINES that the digital		
transformation offers significant opportunities		
for a better quality of life, economic growth and		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
sustainability and is essential to contribute to an		
innovative, resource-efficient and fair economy		
and society in the Union.		
2. STRESSES that a successful digital		//
transformation of our societies can only be		
founded on mutual trust between among all		
players, including Member States, citizens and		
businesses companies, and among citizens and		
UNDERLINES the importance of pursuing our		
European approach to digitalisation based on		
principles such as transparency and		
accountability. the EU's commitment taken in		
the Digital Decade Policy Programme to ensure		
a secure, safe, inclusive and sustainable digital		
transformation, based on technological		
leadership, competitiveness and on a human-		
centric approach, ereating a safe space where		
the EU values, including rule of law and		
inclusiveness, are promoted and the		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
fundamental and digital rights are protected		
respected.		
3. RECALLS the EU's commitment taken in		
the Digital Decade Programme to ensure a		
digital transformation based on technological		
leadership and on a human-centric approach,		
creating a safe space where the EU values,		
including rule of law and inclusiveness, are		
promoted and the fundamental and digital rights		
are protected.		
4. HIGHLIGHTS the EU's ambition to play		
a leading global role <u>globally</u> in the digital		
transformation and digital governance that		
promotes democratic values, sustainable		
digitalisation and puts people and their universal		
human rights at the centre, in line with the EU		
Declaration on Digital Rights and Principles.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
5. WELCOMES the Commission's efforts to		
build strong international digital partnerships		
and alliances that reflect and promote European		
values and support a resilient, green and		
competitive digital market and that promote the		
EU approach to digital governance, enhance EU		
economic security and competitiveness, as well		
as the Commission's efforts to strengthen		
cooperation with likeminded partners in relevant		
multilateral and multistakeholder fora.		
HIGHLIGHTS the importance to ensure that		
this work in the international fora is developed		
and conducted by Member States, the European		
External Action Service and the European		
Commission, in close cooperation.		
WELCOMES the aim to increase European		
leadership in the development of global		
interoperable standards to drive greater impact		
from European research and innovation		
activities and using standardisation as an		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
international scaling platform for European values and innovations.		
6. REAFFIRMS that digital sovereignty open strategic autonomy and resilience is essential for the Union to chart its own path in the digital transformation, to enhance the Union's open strategic autonomy and resilience, to strengthen its economy and industry, and to promote a sustainable technological development across the Union. RECALLS that this digital sovereignty must should be viewed in light of line with the Union's commitment to a fair, open and values rules-based global digital market.	REAFFIRMS that digital sovereignty digital open strategic autonomy and resilience is essential for the Union to chart its own path in the digital transformation, to enhance the Union's open strategic autonomy and resilience, to strengthen its economy and industry, and to promote a sustainable technological development across the Union. RECALLS that this digital sovereignty must should be viewed in light of line with the Union's commitment to a fair, open and values rules based global digital market.	Welcome new working in paragraph 6 where digital sovereignty is replaced by open strategic autonomy and resilience and a 'commitment to a fair open and rule-based global digital market.
7. EMPHASISES that the digital transformation needs <u>ambitious</u> , combined and coordinated investments at EU level <u>in addition</u> to investments from public and private actors at <u>national level</u> . These investments, in particular		Support retention of new language UNDERSCORES

First compromise proposal st 7619/24	Drafting Suggestions	Comments
from the Digital Europe Programme (DIGITAL)		
and the Connecting Europe Facility (CEF		
Digital), are essential to foster innovation,		
digital skills, infrastructure and the development		
and uptake of digital technologies across the		
EU. <u>UNDERSCORES</u> the importance of		
ensuring that procedures in the EU funding		
programmes are streamlined with a view to		
improving certainty and predictability and to		
fostering a level playing field for all the actors		
involved, including SMEs and start-ups.		
CALLS UPON the Commission to promote		
synergies between digital research and		
innovation endeavours under Horizon Europe		
and practical deployment initiatives within the		
Digital Europe Programme DIGITAL and CEF		
<u>Digital</u> , as these programmes are instrumental to		
achieve the goals of the Union's Digital Policy		
Decade Programme.		
Digital rules and governance		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
8. NOTICES the significant number of EU legislative acts that have been adopted in the digital field in recent years to strengthen the Digital Single Market and STRESSES the need to prioritise in the coming years their effective	8. NOTICES the significant number of EU legislative acts that have been adopted in the digital field in recent years to strengthen the Digital Single Market and STRESSES the need to prioritise in the coming years their effective	• Strongly welcome the strengthened text on regulatory coherence in point 8 and 9. The new wording is very clear, and effective and coherent implementation of digital regulation is one of our main priority issues. Also welcome reference to 9a (minimising burden for SMEs). In particular ensuring coordination between the existing
and efficient implementation. UNDERLINES the need to earefully thoroughly assess any new legislative act initiative, in particular with a view to ensure a balance between innovation and regulatory burden by guaranteeing a coherent regulatory framework, minimising administrative burden and to preventing the risk	and efficient implementation. UNDERLINES the need to earefully thoroughly assess any new legislative aet initiative, in particular with a view to ensure a balance between innovation and regulatory burden by guaranteeing a coherent regulatory framework, minimising administrative burden and to preventing the risk	governance structures at EU and national level, and ensuring there is no duplication. Welcome language on ensuring legal certainty.
of hampering the establishment of an agile and innovation-friendly European ecosystem.	of hampering the establishment of an agile and innovation-friendly European ecosystem. ENCOURAGES the Commission to initiate a mid-term analysis of the European digital rulebook in 2027 to evaluate the effectiveness and coherence of European digital legislation, and suggest proposals to strengthen the future-

	on openness and a level playing field,	
	particularly for SMEs and start-ups and scale-	
	ups.	
9a. CALLS UPON the Commission to reflect		Support inclusion
on tools and solutions to ensure consistency in		
the application of existing legislative acts and to		
explore ways to reduce administrative burden,		
in particular for SMEs.		
9b. ACKNOWLEDGES that, in light of the		Support inclusion
growing importance of digital technologies.		
including Internet of Things, the current legal		
framework entails, to address cybersecurity		
vulnerabilities in digital products and processes,		
important cybersecurity elements such as		
security and resilience by design. Therefore,		
<u>UNDERLINES</u> the need to ensure the inherent		
coherence between the digital and cybersecurity		
EU policy.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
10. UNDERLINES the importance of an		
effective and efficient implementation and		
enforcement of the Artificial Intelligence Act to		
develop and promote trustworthy artificial		
intelligence (hereafter 'AI'). EMPHASISES in		
this regard that a close cooperation between the		
AI Office, the AI Board, the AI Scientific Panel		
and the advisory forum is key and INVITES the		
Commission to also reflect upon the future role		
of the European Centre for Algorithmic		
Transparency and leveraging its expertise		
beyond the Digital Services Act.		
11. EMPHASISES the importance of	S	support addition of standardisation organisations.
harmonised standards and certifications		
requirements, in particular in the context of AI,		
cybersecurity, digital identity, data sharing		
mechanisms and services and common		
European data spaces in order to further		
promote enable and stimulate the adoption of		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
digital technologies aligned with European		
legislative requirements. ENCOURAGES the		
Commission to issue standardisation requests in		
a timely, open and coherent manner, involving		
Member States, European standardisation		
organisations and stakeholders appropriately,		
facilitating Member States' and businesses'		
compliance to the largest extent possible.		
Digital and cutting-edge technologies		
12. RECOGNISES the importance of a	RECOGNISES the importance of a common	
common and strategic European approach to	and strategic European approach to innovative	
innovative digital technologies such as virtual	digital technologies such as virtual worlds,	
worlds, advanced semiconductors, generative	advanced semiconductors, generative AI,	
AI, quantum technologies, 6G technology,	quantum technologies, 6G technology,	
blockchain infrastructure, digital twins and	blockchain infrastructure, digital twins and	
<u>virtual worlds</u> , and to any future technologies,	<u>virtual worlds</u> , and to any future technologies,	
as enablers for the technological sovereignty	as enablers for the technological sovereignty	
development and competitiveness of the EU at a	development and competitiveness of the EU at a

First compromise proposal st 7619/24	Drafting Suggestions	Comments
development, social and environmental benefits.	global level, as well as for <u>sustainable</u> <u>economic</u>	
ENCOURAGES the promotion of dynamic	development, social and environmental benefits	
ecosystems around key digital technologies		
supporting their development, deployment and		
uptake among EU businesses public and private		
sectors, based on openness and a level playing		
field, particularly for SMEs and start-ups and		
scale-ups.		
13. UNDERLINES the importance of		
supporting and enabling a <u>resilient</u> , green er ,		
digital, more safe and secure, resilient, and		
sovereign European ecosystem in		
semiconductors and microelectronics and		
HIGHLIGHTS, in this regard, the swift start of		
the implementation of the European Chips Act		
Chips for Europe Initiative.		
14. STRESSES the economic and strategic		
potential of quantum technologies for the		
scientific, technological and industrial		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
competitiveness of the EU and CALLS on the		
Commission and the Member States to continue		
and coordinate efforts to create synergies		
between research and development activities,		
support joint initiatives and encourage further		
investments for in EU quantum companies from		
the public , academic and private sectors.		
15. ACKNOWLEDGES that the current legal		
framework introduces important elements such		
as compliance by design, interoperability and		
regulatory sandboxes which constitute key tools		
for the development of digital technologies and		
should be further used in future legislative		
initiatives, as well as in the enforcement of		
existing legislation. UNDERLINES the		
importance of pursuing a balance between		
innovation and regulation through guidance and		
tools which may accompany businesses,		
governments and consumers when navigating		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
through the continuously evolving digital		
landscape.		
16. RECOGNISES the importance of		
European Digital Infrastructure Consortia		
(hereafter 'EDICs') for developing strategic		
multi-country projects that pool resources to		
achieve large-scale projects that no a single		
Member State entity cannot tackle undertake on		
its own. EDICs and other implementing		
mechanisms for multi-country projects are		
essential for serving businesses and citizens and		
businesses, and their further development		
should be supported.		
17. RECALLS that the European Economic		
Security Strategy and approach to economic		
security is based on promoting the Union's		
competitiveness by bolstering its single market,		
innovation, technological and industrial		
capacities; protecting the Union's economic		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
security through a range of existing and new		
instruments; partnering with like-minded		
international partners who share EU concerns		
with a view to strengthening international rules,		
institutions and economic security through		
diversified and improved trade agreements, and		
investing in sustainable development.		
EMPHASISES the importance for the Union's		
competitiveness of ensuring the security of		
critical emerging technologies resulting from		
significant research, development, and		
investments made in the Union, and of		
protecting against the risks of technology		
leakage, while preserving maximum levels of		
economic openness and dynamism.		
Democratic and sSocietal effects of		
digitalisation		
18. ACKNOWLEDGES the existence of a		
delicate balance between on the one hand need		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
to fostering innovation, entrepreneurship and		
capital market development and to maximise the		
benefits of digitalisation for all, while at the		
same time on the other hand establishing		
safeguards regarding risks and challenges		
related to digital technologies and services,		
including discrimination, disinformation, illegal		
content online, online violence, fake profiles,		
identity theft, security breaches and data		
protection issues and security breaches.		
STRESSES in this regard the importance of the		
new rules framing obligations for online		
platforms and online search engines, notably		
through the Digital Services Act (DSA) and the		
Digital Markets Act (DMA). ENCOURAGES		
the Commission to further pursue and enhance		
the implementation of these landmark rules and		
their enforcement and to further address issues		
linked notably to recommender systems and		
dark patterns, in order to ensure on the one hand		
that societal risks stemming from such systems		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
are tackled, in particular for the protection of		
children, and on the other hand that existing		
obligations are not circumvented.		
19. HIGHLIGHTS EXPRESSES ITS		
CONCERN that in return for access to digital		
services, users often provide vast amounts of		
data without fully understanding how their data		
is used and the implications thereof.		
ENCOURAGES the Commission to <u>further</u>		
reflect on the societal risks stemming from		
digital services and to consider measures to		
address issues related to addictive designs and		
excessive online tracking and data harvesting		
following resulting from the use of tracking		
technologies by providers of digital services. 5		
and, in this regard, RECALLS the need for		
special attention on the well-being of children,		
and youth, limiting their protecting them from		
exposure to certain types of content, and		
safeguarding their data, and protecting their		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
privacy as essential elements of their online		
safety while empowering them to make		
informed choices and respecting their right to		
privacy.		
20. INVITES the Commission to examine <u>the</u>		
functioning of, and potential gaps in the EU's		
current legal framework, such as the General		
Data Protection Regulation and the Digital		
Services Act, in relation to the Directive on		
privacy of and electronic communications,		
taking into account technological development		
and the evolution of digital services and their		
business models, the growth of the data		
economy as well as the broader EU legislative		
landscape of relevance for the digital context,		
such as the General Data Protection Regulation		
and the DSA.		
21. CALLS for ENCOURAGES the		
development of concrete tools use-cases to		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
support users , online platforms and public and		
private sector services and national authorities		
in the verification of digital identity use of the		
European Digital Identity Wallet and trust		
services based on the European Digital Identity		
Framework, such as a system of verified and		
non-verified users. CALLS upon the		
Commission to offer guidance, establish		
safeguards and develop harmonised policies and		
tools in close cooperation with Member States		
to ensure secure, user-friendly and interoperable		
digital identity solutions and trust services,		
including for age and identity verification.		
21a. INVITES the Commission and the		
Member States to reflect, in the framework of		
the review of the EU's Digital Decade Policy		
Programme, on mechanisms to monitor the		
societal and economic risks stemming from		
digitalisation such as inequality, poverty and		
social exclusion.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
Data strategy		
22. EMPHASISES the significant steps made		
towards the development of a robust EU data		
governance which improves the free flow of.		
fair access to, and use of data in a secured,		
interoperable and trusted manner within the		
Union, across sectors and, where applicable and		
subject to appropriate safeguards, with third		
countries. RECOGNISES the importance of the		
data economy, as a key enabler for Europe to		
prosper in the digital age and HIGHLIGHTS the		
importance to of continueing the development		
of sectorial data spaces within and across		
sectors, based upon experience from existing		
data spaces and consultation with the European		
Data Innovation Board, which are a key element		
to facilitate data sharing.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
23. UNDERLINES that cloud infrastructure		
and services are an essential aspect of the		
European digital sovereignty and		
competitiveness and thus important for the EU		
to fully benefit from the data economy.		
ACKNOWLEDGES the important steps <u>made</u>		
towards the development of interoperable,		
trusted, safe and secure European cloud and		
edge services and. CALLS upon the		
Commission to continue its efforts, <u>building on</u>		
the implementation of the Data Act, and further		
assess the way to promote interoperability and		
portability and to ensure a fair, non-		
discriminatory and balanced broad access to		
cloud <u>and edge</u> solutions among <u>for</u> business <u>es</u> ,		
and in particular SMEs. UNDERLINES the		
importance of ensuring an open, secure and		
competitive European cloud and edge market to		
the benefit of European businesses and users		
and that cloud and edge infrastructure and		
services are an essential aspect of the European		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
digital sovereignty and competitiveness and thus		
important for the EU to fully benefit from the		
data economy. ACKNOWLEDGES the		
important steps towards the development of		
interoperable, trusted, safe and secure European		
cloud and edge services and CALLS upon the		
Commission to continue its efforts and further		
assess the way to promote interoperability and		
portability and to ensure a fair and balanced		
access to cloud solutions among business and		
SMEs. INVITES the Commission to continue		
its work on stimulating targeted investments <u>in</u>		
European cloud and edge services and the		
development of new these next generation EU		
eloud services.		
Digital infrastructure		
Digital initastructure		
24. EXPRESSES the importance of attaining		CSIPEPD: Support retention of "secure and
the Digital Decade Policy Programme		resilient"
connectivity targets and supporting an		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
innovative and competitive digital infrastructure		
ecosystem, i.e. to ensure all EU households have		
access to Gigabit speeds and a wireless		
highspeed network with performances at least		
equivalent to that of 5G technology or		
equivalent mobile technology by 2030. In that		
regard, CALLS on the Commission and the		
Member States to stimulate and facilitate secure		
and resilient joint the roll-out of secure and		
resilient 5G, and edge, fibre networks, as well as		
to facilitate infrastructure sharing to lower the		
costs of deployment of very high-capacity		
networks and speed up their deployment across		
the Union and uniformising procedures.		
UNDERLINES the importance of leveraging		
the single market to facilitate the investments		
needed to ensure such joint roll-out.		
25. AGREES with WELCOMES the	WELCOMES the objectives of the	DECC ECPRD: Too early to welcome the

the early identification recognition of spectrum		
needs and its environmental impact.		
27. ACKNOWLEDGES the Commission's		Ż
efforts via the European High Performance		
Computing Joint Undertaking to coordinate		
European investment in major supercomputing		
infrastructures and accompanying software		
solutions, which will be fundamental to secure		
European leadership in a huge range of		
scientific and industrial applications, and		
WELCOMES the broadening of the Joint		
Undertaking's mission so that it also invests in		
AI-oriented supercomputers, in the creation of		
AI factories, whose resources should be made		
available to a large number of public and private		
users, in particular European AI start-ups to		
train their large AI models and generative AI		
systems.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
28. ACKNOWLEDGES that the current legal		
framework introduces important elements such		
as security and resilience by design, in light of		
the growing importance of digital connectivity,		
including Internet of Things. ENCOURAGES		
identifying and addressing the security		
weaknesses of all digital products and		
processes.		
Sustainable Green and digital		
trans <u>ition</u> formation		
29. STRONGLY UNDERLINES that the		
digital transformation should go hand in hand		
with the green transition. <u>HIGHLIGHTS that</u>		
The development and increasingly widespread		
use of digital technologies such as generative		
AI, cloud <u>and edge</u> computing, <u>virtual worlds</u> ,		
blockchain, and high-performance computing,		
as well as the increased amount of data and data		
centres quantum technologies and the Internet of		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
Things can offer opportunities to foster a		
competitive European circular economy, to		
reduce the environmental footprint and to		
accelerate the green transition. However,		
ACKNOWLEDGES that these digital		
technologies and the increased amount of data		
and data centres requires-large amounts of		
resources including energy, water and critical		
raw materials, therefore exerting pressure on the		
environment and climate.		
30. ENCOURAGES to urgently reduce the		
environmental footprint of the ICT sector and to		
support its transition to climate neutrality by		
2050. UNDERLINES the need to promote		
awareness, and including through transparency		
requirements and digital sobriety, as well as to		
develop solutions for businesses, public sectors		
and consumers, such as sustainability by design,		
to reduce their digital footprint and e-waste in		
order to avoid inefficient consumption and in

line with the principle to reduce, reuse and		
recycle.		
31. STRESSES the importance <u>for the</u>		
Commission and the Member States to support		
the deployment of to deploy and combined		
digital and green solutions for future innovation		
and growth in all industries and public		
organisations that have measurably net positive		
environmental impact. In that regard,		
EMBRACES the potential of the Ecodesign for		
Sustainable Products Regulation, in particular		
the digital product passport, to improve		
communication of information on the		
environmental impact of products. In addition,		
WELCOMES the EU action plan on digitalising		
the energy systems that will improve		
communication of information on the energy		
and environmental impact of data centres,		
notably through the development of an		
environmental labelling scheme for data centres.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
32. CALLS for developing evidence-based		
assessment methodologies for measuring the		
digital-environmental footprint as well as the		
digital enablement positive handprint effect of		
digital technologies based on high-quality,		
comparable, reliable and standardised data, and		
ENCOURAGES the Commission, Member		
States and stakeholders to use these		
methodologies to explore and harness the		
enormous potential positive net environmental		
impact of digitalisation to assist the EU in		
achieving its goal of transitioning to climate		
neutrality by 2050 and the energy efficiency		
targets for 2040 2030.		
33. RECALLS the review of the EU's Digital		
Decade Programme and INVITES the		
Commission and Member States to reflect on		
adding a target related to a greener digital		
transition with the aim to incentivise the		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
deployment of innovative technologies to the		
benefit of climate action.		
Digital skills		
34. STRESSES the need to increase efforts to		Support retention of reference to gender.
bridge the digital divide, including the gender		
digital divide, by developing digital awareness,		
knowledge, and skills and competences of all		
citizens, with a particular attention to vulnerable		
groups people, during all stages of life.		
UNDERLINES the role of the Digital Decade		
<u>Policy</u> Programme in ensuring that the digital		
transformation responds to the needs of the		
European society and labour market, including		
through regional and local networks. INVITES		
all institutions to support these efforts to bridge		
the digital divide and to support the		
development and uptake of solutions to better		
equip and accompany European citizens, <u>public</u>		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
and private sectors through the digital		
transformation.		
35. STRESSES the need for an enhanced		
focus on ways to attract and retain talent in the		
EU in order to reinforce the competitiveness of		
the European Union and its positioning as a		
global digital player. CALLS on the		
Commission to develop a multifaceted strategy		
to_support Member States in attaining the digital		
skills objectives of the Digital Decade Policy		
Programme, notably through academic and		
industrial partnerships, lowering barriers to		
attract and employ digital talent as well as		
adopting European recognition schemes for the		
adoption of auto-certification or micro-diplomas		
recognising micro-credentials in the labour		
market in line with the EU Council		
Recommendation on a European approach to		
micro-credentials.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
36. EMPHASISES the need to promote		
regular formal and non-regular formal		
education in ICT and Sciencetifie Technology,		
Engineering, Arts and Mathematics ('STEAM')		
areas to further develop digital skills and		
competences, with a particular attention focus		
on to women and girls, since the severe and		
persistent gender gap in the digital sector		
undermines how digital solutions are designed		
and deployed, with proven negative		
consequences for social <u>inclusion</u> , <u>gender</u>		
equality and welfare overall economic growth.		
Digital governments		
37. UNDERLINES the need for digital		
governments, driven forward by the human-		
centric, data-driven and AI-enabled		
transformation of the public sector, while		
embedding core principles for good governance		
such as interoperability, inclusiveness.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
transparency and sustainability as their core		
principles.		
38. INVITES the Commission to continue its		
support for the development of interoperable		
public digital services and the cross-border		
interconnection of public administrations' eloud		
infrastructures, including cloud and edge		
infrastructures, to achieve their increased		
resilience, efficiency and sustainability, and to		
further reflect, together with Member States, on		
their technical, legal, semantic and operational		
barriers and on how to overcome them. In this		
regard, CALLS on the Commission to promote		
knowledge exchange and to support joint		
initiatives between Member States.		
39. EMPHASISES the need to consider		
digital and interoperability implications of		
policies from the outset, in order to address		
potential issues ahead of time, to ensure the		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
smooth implementation of legislation and to		
reduce the <u>regulatory</u> reporting burden <u>as well</u>		
as compliance costs on businesses. In this		
regard, INVITES CALLS UPON the		
Commission to put digital-ready policymaking		
in practice through guidelines, tools and		
trainings with the aim to bridge the gap between		
policy design and implementation.		
International dimension of EU digital policy		Support retention of all paras 39a to 39d
39a. CONSIDERS that digital matters, which		
are important enablers for in the EU's		
competitiveness and security, gain significant		
international weight in the constantly changing		
geopolitical landscape.		
39b. WELCOMES the development and	39b. WELCOMES the development and	
strengthening of international and regional	strengthening of international and regional	
digital partnerships, as well as cooperation in	digital partnerships, as well as cooperation in	
and with relevant multilateral and	and with relevant multilateral and

multistakeholder fora, in order to promote EU	multistakeholder fora, in order to promote EU	
strategic interests as well as to protect universal	strategic interests as well as to protect universal	
human rights and fundamental values.	human rights and fundamental values. CALLS	
	UPON the Commission to assure for coherence with	
	Cyber dialogues and WELCOMES involvement of the	
	High Representative and Member States in digital	
	dialogues.	
39c. CALLS UPON the Commission, the High		
Representative and the Member States to ensure		
a proactive and coordinated approach to develop		
a stronger, more strategic, coherent and		
effective EU policy and action in global digital		
affairs and to confirm EU engagement and		
leadership at international level. In this context,		
WELCOMES the work done to develop a		
coherent EU Digital Diplomacy by Member		
States, the High Representative and the		
Commission and CALLS for a further		
strengthening of the Team Europe approach.		

First compromise proposal st 7619/24	Drafting Suggestions	Comments
39d. EMPHASISES the need to develop an EU		Strongly support retention of this paragraph
strategy on the multistakeholder digital		
governance, including the governance of the		
Internet to set out a common position to uphold		
in international fora, including on issues such as		
internet standards and protocols. WELCOMES		
the aim to increase European leadership in the		
development of global standards to drive greater		
impact from European research and innovation		
activities and using standardisation as an		
international scaling platform for European		
values and innovations.
