WORKING PARTY ON TECHNICAL HARMONIZATION MEASURING INSTRUMENT DIRECTIVE

21 May 2025

(morning only)

Dear Colleagues,

The last Technical Harmonisation Party on Measuring Instrument Directive under Polish Presidency will be taking place on 21 May, in the morning.

At the meeting, we would like to present the first presidency compromise text to the remaining parts of the directive:

- Annex III amending Annex V, Active Electrical Energy Meters, MI-003
- Annex IV inserting new Annex Va, Electric Vehicle Supply Equipment, MI-003a

published in Delegates' Portal under number ST 8432/2025.

All of the proposed changes, after a deep analysis, have been based on the received comments and drafting suggestions and the results of the questionnaire.

After the discussion at the working party we, would like to ask you to send the written comments to the compromise text of Annex III and Annex IV by 4 June the latest (in table which will be circulated after the meeting).

Please send also the comments to Presidency partial compromise proposal, if you have not done it already (WK 6234 2025 INIT).

Finally, after the working party, the complete first compromise proposal of Measuring Instrument Directive will then be consolidated by the Council Secretariat, and we will hand it over to the incoming Danish Presidency for further work on this file.

We are looking forward to seeing you on 21 May!

Polish Presidency Team
