10	(1) Europol's 2021 Serious and Organised Crime Threat Assessment (SOCTA) highlighted the rising threat from organised crime and criminal infiltration. Driven by the large revenues generated by organised crime, which amount to at least EUR 139 billion every year, and which are increasingly laundered through a parallel underground financial system, the availability of such proceeds from criminal activities poses a significant threat to the integrity of the economy and society, eroding the rule of law and fundamental rights. The EU Strategy to tackle Organised Crime 2021-2025 aims at addressing these challenges by promoting cross-border cooperation, supporting effective investigations against criminal networks, eliminating proceeds from criminal activities, and making law enforcement and the judiciary fit for the digital age.
