PRESIDENCY FLASH NOTE

8th Working Party on Company Law

Thursday 11th of June 2026, 10:00 a.m.

Dear Colleagues,

We are pleased to invite you to our 8th Working Party meeting, which will take place on Thursday 11th June at 10:00 a.m. It will be a full-day meeting and will again be held in a Council room which allows a 2+2 seating formation.

During the meeting, we will continue the discussion on the **formation of an EU Inc. company and the associated processes and digital systems.**

After concluding this thematic, we will enter the discussion of our next thematic which is **Internal Organisation and governance of the EU Inc company.** The Presidency intends to discuss in particular company bodies, corporate decision making as well as shareholders rights, including class and voting rights.

In order to ensure an efficient meeting, the Presidency invites delegations to focus on the main issues and welcomes feedback on whether additional harmonization of certain issues could be considered.

We strongly encourage you to share with the Presidency **as soon as possible** and in advance of the Working Party ***(ideally by 09/06/2026)*** any questions and comments that you might already have regarding this topic.

This will hopefully help us all gain in speed and efficiency of discussions, and it will also enable the Commission to better focus on your areas of concern during their presentation.

Presidency has already sent the template for drafting suggestions on the Proposal for a Regulation on the 28th Regime – EU Inc. in view of the first compromise text.
The **deadline** for submission of Member-States suggestions and comments is set on ***Monday 22nd of June, noon.***

Please send your questions and contributions to [redacted] & [redacted] & companylaw@consilium.europa.eu.

In case of any questions, feel free to reach out.

CYPRUS PRESIDENCY OF THE COUNCIL OF THE EUROPEAN UNION

Did you know that

Cypriots had pets in antiquity?

Shillourokampos cat is the oldest known pet cat from a burial dating to 9,500 B.C.

The carefully interred remains of a human and a cat were found buried with 24 seashells, polished stones, and other decorative artifacts in a 9,500-year-old grave site on the Mediterranean island of Cyprus.

This finding from the Neolithic village of Shillourokambos predates early Egyptian art depicting cats by 4,000 years or more.

According to researchers, this joint burial indicates a strong association between human and cat and that the feline is possibly the world's oldest known pet cat.
