# Our working principles

- We expect to start the meetings **15 minutes** past at the latest
- **Silence means agreeing** with the Presidency
- Written contributions are very much appreciated, especially **constructive** one's
- Our aim is the **European well-being** and for that we should try to find **common grounds** with those likeminded to us, but even more with those whom our views diverge more, to find **good and reasonable compromises** for Europe.
- Last but not least – let's have **a good balance** of **hard work**, **co-operation** and **joy**!

# Working methods

In addition to the negotiations in the Council on the RRM Package, 2 trilogues with the Parliament at the same time

Two parallel processes:

- The Working Party meetings – to discuss the key political issues
- The written comments – for two purposes:
  - a) to deal with any technical drafting issues;
  - b) to translate the agreement on key political issues into legal text
