 - in the Partnership Agreement or

an amount of the ERDF, the ESF+, the Cohesion Fund, the JTF and the EMFF to be contributed to InvestEU and delivered through the EU guarantee and the InvestEU Advisory Hub. This amount shall contribute to the achievement of the policy objectives selected in the Partnership Agreement or the programme. The amount to be contributed to InvestEU shall not exceed 5 % of the total allocation of each Fund, for the Member State except in duly justified cases. Such contributions shall be implemented in accordance with the rules established in the InvestEU regulation and shall not constitute transfers of resources under Article 21.
2. For the Partnership Agreement resources of the current and future calendar years may be allocated. For the request for an amendment of a programme, only resources of future calendar years may be allocated.
3. The amount referred to in paragraph 1 shall be used for the provisioning of the part of the EU guarantee under the Member State compartment and for the InvestEU Advisory Hub [upon conclusion of the contribution agreement referred to in Article 9(3) of the [InvestEU Regulation]]. Notwithstanding Article 12 of the Financial Regulation, where a contribution agreement, as set out in Article [9] of the [InvestEU Regulation], has not been concluded within four months following the Commission Decision adopting the Partnership Agreement for an amount referred to in paragraph 1 allocated in the Partnership Agreement, the corresponding amount shall be allocated to a programme

1. The Commission may request a Member State to review and propose amendments to relevant programmes, where this is necessary to support the implementation of relevant Council Recommendations.

Such a request may be made for the following purposes:

- (a) to support the implementation of a relevant country-specific recommendation adopted in accordance with Article 121(2) TFEU and of a relevant Council recommendation adopted in accordance with Article 148(4) TFEU, addressed to the Member State concerned;
 - (b) to support the implementation of relevant Council Recommendations addressed to the Member State concerned and adopted in accordance with Articles 7(2) or 8(2) of Regulation (EU) No 1176/2011¹ of the European Parliament and of the Council provided that these amendments are deemed necessary to help correct the macro-economic imbalances.
2. A request by the Commission to a Member State in accordance with paragraph 1 shall be justified, with reference to the need to support the implementation of the

¹ Regulation (EU) No 1176/2011 of the European Parliament and of the Council of 16 November 2011 on the prevention and correction of macroeconomic imbalances (OJ L 306, 23.11.2011, p. 25).

3. The Member State shall submit its response to the request referred to in paragraph 1 within two months of its receipt, setting out the amendments it considers necessary in the relevant programmes, the reasons for such amendments, identifying the programmes concerned and outlining the nature of the amendments proposed and their expected effects on the implementation of recommendations and on the implementation of the Funds. If necessary, the Commission shall make observations within one month of the receipt of that response.
4. The Member State shall submit a proposal to amend the relevant programmes within two months of the date of submission of the response referred to in paragraph 3.

6. Where the Member State fails to take effective action in response to a request made in accordance with paragraph 1, within the deadlines set out in paragraphs 3 and 4, the Commission may, within three months, following its observations under paragraph 3 or following the submission of the proposal of the Member State under paragraph 4, propose to the Council that it suspend part or all of the payments for the programmes or priorities concerned. In its proposal, the Commission shall set out the grounds for concluding that the Member State has failed to take effective action. In making its proposal, the Commission shall take account of all relevant information, and shall give due consideration to any elements arising from and opinions expressed through the structured dialogue under paragraph 12.

The Council shall decide on that proposal, by means of an implementing act. That implementing act shall only apply with respect to requests for payment submitted after the date of the adoption of that implementing act.

7. The Commission shall make a proposal to the Council to suspend all or part of the commitments or payments for one or more of the programmes of a Member State in the following cases:

The suspension of payments shall apply to payment applications submitted for the programmes concerned after the date of the decision to suspend.

8. A proposal by the Commission for the suspension of commitments shall be deemed adopted by the Council unless the Council decides, by means of an implementing act, to reject such a proposal by qualified majority within one month of the submission of the Commission proposal.

The suspension of commitments shall apply to the commitments from the Funds for the Member State concerned from 1 January of the year following the decision to suspend.

The impact of suspensions on programmes of critical importance to address adverse economic or social conditions shall be a specific factor to be taken into account.
10. The suspension of commitments shall be subject to a maximum of 25 % of the commitments relating to the next calendar year for the Funds or 0,25 % of nominal GDP whichever is lower, in any of the following cases:

2. The total allocations to each Member State in respect of the Investment for jobs and growth goal and the European territorial cooperation goal (Interreg) shall not be transferable between those goals.
3. By way of derogation from paragraph 2, the Commission may in order to uphold the effective contribution of the Funds to the missions referred to in Article 4(2), in duly justified circumstances, and subject to the condition laid down in paragraph 4, accept by means of an implementing act a proposal by a Member State in its first submission of the Partnership Agreement to transfer a part of its appropriations for the European territorial cooperation goal to the Investment for growth and jobs goal.

4. The share of the European territorial cooperation goal in the Member State making the proposal referred to in paragraph 3 shall be not less than 35 % of the total allocated to that Member State in respect of the Investment for growth and jobs goal and the European territorial cooperation goal, and after transfer shall be not less than 25 % of that total.

Article 106

Determination of co-financing rates

1. The Commission decision approving a programme shall fix the co-financing rate and the maximum amount of support from the Funds for each priority.
2. For each priority, the Commission decision shall set out whether the co-financing rate for the priority is to be applied to either of the following:

 - (b) public contribution.
3. The co-financing rate for the Investment for jobs and growth goal at the level of each priority shall not be higher than:
 - (a) 85 % for the less developed regions ;
 - (a bis) 70% for transition regions that were classified as less developed regions in the 2014-2020 programming period;
 - (b) 60 % for the transition regions;
 - (c) 40 % for the more developed regions.

The co-financing rates set out under point (a), shall also apply to outermost regions.

The co-financing rate for the Cohesion Fund at the level of each priority shall not be higher than 85 %.

The ESF+ Regulation may establish higher co-financing rates for support to the most deprived and for priorities supporting innovative actions in accordance with Article 9 and 13 of that Regulation.

4. The co-financing rate for Interreg programmes shall be no higher than 80 %.

The ETC Regulation may establish higher co-financing rates for external cross-border cooperation programmes under the European territorial cooperation goal (Interreg).

5. Technical assistance measures implemented at the initiative of, or on behalf of, the Commission may be financed at the rate of 100 %.

ANNEX XXII

Methodology on the allocation of global resources per Member State – Article 103(2)

Allocation method for the less developed regions eligible under the Investment for jobs and growth goal - Article 102(2)(a)

1. Each Member State's allocation shall be the sum of the allocations for its individual eligible regions, calculated in accordance with the following steps:
 - a) determination of an absolute amount per year (in EUR) obtained by multiplying the population of the region concerned by the difference between that region's GDP per capita, measured in PPS, and the EU-27 average GDP per capita (in PPS);
 - b) application of a percentage to the above absolute amount in order to determine that region's financial envelope; this percentage shall be graduated to reflect the relative prosperity, measured in PPS, as compared to the EU-27 average, of the Member State in which the eligible region is situated, i.e.:
 - i. for regions in Member States whose level of GNI per capita is below 82% of the EU-27 average: 2,85%;
 - ii. for regions in Member States whose level of GNI per capita is between 82% and 99% of the EU-27 average: 1,25%;
 - iii. for regions in Member States whose level of GNI per capita is over 99% of the EU-27 average: 0,75%;
 - c) to the amount obtained in accordance with point (b) is added, if applicable, an amount resulting from the allocation of a premium of EUR 570 per unemployed person per year, applied to the number of persons unemployed in that region exceeding the number that would be unemployed if the average unemployment rate of all the less developed regions applied;
 - d) to the amount obtained in accordance with point (c) is added, if applicable, an amount resulting from the allocation of a premium of EUR 570 per young unemployed person (age group 15-24) per year, applied to the number of young persons unemployed in that region exceeding the number that would be unemployed if the average youth unemployment rate of all less developed regions applied;
 - e) to the amount obtained in accordance with point (d) is added, if applicable, an amount resulting from the allocation of a premium of EUR 270 per person (age group 25-64) per year, applied to the number of persons in that region that would need to be subtracted in

- order to reach the average level of low education rate (less than primary, primary and lower secondary education) of all less developed regions;
- f) to the amount obtained in accordance with point (e) is added, if applicable, an amount of EUR 1 per tonne of CO₂ equivalent per year applied to the population share of the region of the number of tonnes of CO₂ equivalent by which the Member State exceeds the target of greenhouse gas emissions outside the emissions trading scheme set for 2030 as proposed by the Commission in 2016;
 - g) to the amount obtained in accordance with point (f) is added, an amount resulting from the allocation of a premium of EUR 405 per person per year, applied to the population share of the regions of net migration from outside the EU to the Member State since 1 January 2014.

Allocation method for transition regions eligible under the Investment for jobs and growth goal - Article 102(2)(b)

2. Each Member State's allocation shall be the sum of the allocations for its individual eligible regions, calculated in accordance with the following steps:
 - a) determination of the minimum and maximum theoretical aid intensity for each eligible transition region. The minimum level of support is determined by the initial average per capita aid intensity of all more developed regions, i.e. EUR 15.2 per head and per year. The maximum level of support refers to a theoretical region with a GDP per head of 75% of the EU-27 average and is calculated using the method defined in points (a) and (b) of paragraph 1. Of the amount obtained by this method, 60% is taken into account;
 - b) calculation of initial regional allocations, taking into account regional GDP per capita (in PPS) through a linear interpolation of the region's relative GDP per capita compared to EU-27;
 - c) to the amount obtained in accordance with point (b) is added, if applicable, an amount resulting from the allocation of a premium of EUR 560 per unemployed person per year, applied to the number of persons unemployed in that region exceeding the number that would be unemployed if the average unemployment rate of all the less developed regions applied;
 - d) to the amount obtained in accordance with point (c) is added, if applicable, an amount resulting from the allocation of a premium of EUR 560 per young unemployed person (age group 15-24) per year, applied to the number of young persons unemployed in that region exceeding the number that would be unemployed if the average youth unemployment rate of all less developed regions applied;

- e) to the amount obtained in accordance with point (d) is added, if applicable, an amount resulting from the allocation of a premium of EUR 250 per person (age group 25-64) per year, applied to the number of persons in that region that would need to be subtracted in order to reach the average level of low education rate (less than primary, primary and lower secondary education) of all less developed regions;
- f) to the amount obtained in accordance with point (e) is added, if applicable, an amount of EUR 1 per tonne of CO₂ equivalent per year applied to the population share of the region of the number of tonnes of CO₂ equivalent by which the Member State exceeds the target of greenhouse gas emissions outside the emissions trading scheme set for 2030 as proposed by the Commission in 2016;
- g) to the amount obtained in accordance with point (f) is added, an amount resulting from the allocation of a premium of EUR 405 per person per year, applied to the population share of the region of net migration from outside the EU to the Member State since 1 January 2014.

Allocation method for the more developed regions eligible under the Investment for jobs and growth goal - Article 102(2)(c)

3. The total initial theoretical financial envelope shall be obtained by multiplying an aid intensity per head and per year of EUR 15.2 by the eligible population.
4. The share of each Member State concerned shall be the sum of the shares of its eligible regions, which are determined on the basis of the following criteria, weighted as indicated:
 - a) total regional population (weighting 20%);
 - b) number of unemployed people in NUTS level 2 regions with an unemployment rate above the average of all more developed regions (weighting 12.5%);
 - c) employment to be added to reach the average employment rate (ages 20 to 64) of all more developed regions (weighting 20%);
 - d) number of persons aged 30 to 34 with tertiary educational attainment to be added to reach the average tertiary educational attainment rate (ages 30 to 34) of all more developed regions (weighting 22.5%);
 - e) number of early leavers from education and training (aged 18 to 24) to be subtracted to reach the average rate of early leavers from education and training (aged 18 to 24) of all more developed regions (weighting 15%);
 - f) difference between the observed GDP of the region (measured in PPS), and the theoretical regional GDP if the region were to have the same GDP per head as the most prosperous NUTS level 2 region (weighting 7,5%);

- g) population of NUTS level 3 regions with a population density below 12,5 inhabitants/km² (weighting 2,5%).
5. To the amounts by NUTS level 2 region obtained in accordance with point (4) is added, if applicable, an amount of EUR 1 per tonne of CO₂ equivalent per year applied to the population share of the region of the number of tonnes of CO₂ equivalent by which the Member State exceeds the target of greenhouse gas emissions outside the emissions trading scheme set for 2030 as proposed by the Commission in 2016.
6. To the amounts by NUTS level 2 region obtained in accordance with point (5) is added, an amount resulting from the allocation of a premium of EUR 405 per person per year, applied to the population share of the region of net migration from outside the EU to the Member State since 1 January 2014.

Allocation method for the Member States eligible for the Cohesion Fund - Article 102(3)

7. The financial envelope shall be obtained by multiplying the average aid intensity per head and per year of EUR 62.9 by the eligible population. Each eligible Member State's allocation of this theoretical financial envelope corresponds to a percentage based on its population, surface area and national prosperity, and shall be obtained by applying the following steps:
- a) calculation of the arithmetical average of that Member State's population and surface area shares of the total population and surface area of all the eligible Member States. If, however, a Member State's share of total population exceeds its share of total surface area by a factor of five or more, reflecting an extremely high population density, only the share of total population will be used for this step;
 - b) adjustment of the percentage figures so obtained by a coefficient representing one third of the percentage by which that Member State's GNI per capita (measured in PPS) for the period 2015-2017 exceeds or falls below the average GNI per capita of all the eligible Member States (average expressed as 100%).

For each eligible Member State, the share of the Cohesion Fund shall not be higher than one third of the total allocation minus the allocation for the European territorial development goal after the application of paragraphs 10 to 16. This adjustment will proportionally increase all other transfers resulting from paragraphs 1 to 6.

Allocation method for the European territorial cooperation goal – Article 9

8. The allocation of resources by Member State, covering cross-border, transnational and outermost regions' cooperation is determined as the weighted sum of the shares determined on the basis of the following criteria, weighted as indicated:
- a) total population of all NUTS level 3 land border regions and of other NUTS level 3 regions of which at least half of the regional population lives within 25 kilometres of the border (weighting 45.8%);
 - b) population living within 25 kilometres of the borders (weighting 30.5%);
 - c) total population of the Member States (weighting 20%);
 - d) total population of outermost regions (weighting 3.7%).

The share of the cross-border strand corresponds to the sum of the weights of criteria (a) and (b). The share of the transnational strand corresponds to the weight of criterion (c). The share of the outermost regions' cooperation corresponds to the weight of criterion (d).

Allocation method for the additional funding for the outermost regions identified in Article 349 TFEU and the NUTS level 2 regions fulfilling the criteria laid down in Article 2 of Protocol No 6 to the 1994 Act of Accession – Article 104(1)(e)

9. An additional special allocation corresponding to an aid intensity of EUR 40 per inhabitant per year will be allocated to the outermost NUTS level 2 regions and the northern sparsely populated NUTS level 2 regions. That allocation will be distributed per region and Member State in a manner proportional to the total population of those regions.

Minimum and maximum levels of transfers from the funds supporting economic, social and territorial cohesion

10. In order to contribute to achieving adequate concentration of cohesion funding on the least developed regions and Member States and to the reduction of disparities in average per capita aid intensities, the maximum level of transfer (capping) from the Funds to each individual Member State will be determined as a percentage of the GDP of the Member State, whereby these percentages will be as follows:
- a) for Member States whose average GNI per capita (in PPS) for the period 2015-2017 is under 55% of the EU-27 average: 2,3% of their GDP
 - b) for Member States whose average GNI per capita (in PPS) for the period 2015-2017 is equal to or above 68% of the EU-27 average: 1,5% of their GDP;

- c) for Member States whose average GNI per capita (in PPS) for the period 2015-2017 is equal to or above 55% and below 68% of the EU-27 average: the percentage is obtained through a linear interpolation between 2.3% and 1.5% of their GDP leading to a proportional reduction of the capping percentage in line with the increase in prosperity.

The capping will be applied on an annual basis to the GDP projections of the Commission, and will - if applicable - proportionally reduce all transfers (except for the more developed regions and European territorial cooperation goal) to the Member State concerned in order to obtain the maximum level of transfer.

11. The rules described in paragraph 10 shall not result in allocations per Member State higher than 107 % of their level in real terms for the 2014-2020 programming period. This adjustment shall be applied proportionately to all transfers (except for the European territorial development goal) to the Member State concerned in order to obtain the maximum level of transfer.
12. The minimum total allocation from the Funds for a Member State shall correspond to 76% of its individual 2014-2020 total allocation. The minimum total allocation from the Funds for a Member State where at least one third of the population lives in NUTS level 2 regions with a GDP per capita (in PPS) of less than 50% of the EU-27 average, will correspond to 85% of its individual 2014-2020 total allocation. The adjustments needed to fulfil this requirement shall be applied proportionally to the allocations from the Funds, excluding the allocations under the European territorial cooperation goal.
13. The maximum total allocation from the Funds for a Member State having a GNI per capita (in PPS) of at least 120% of the EU-27 average shall correspond to 80% of its individual 2014-2020 total allocation. The maximum total allocation from the funds for a Member State having a GNI per capita (in PPS) equal to or above 110% and below 120% of the EU-27 average will correspond to 90% of its individual 2014-2020 total allocation. The adjustments needed to fulfil this requirement shall be applied proportionally to the allocations from the Funds, excluding the allocation under the European territorial cooperation goal. If a Member State has transition regions for which paragraph 15a applies, 25% of that Member State's allocation for the more developed regions shall be transferred to the allocation of that Member State's transition regions.

Additional provisions

14. For all regions that were classified as less developed regions for the 2014-2020 programming period, but whose GDP per capita is above 75% of the EU-27 average, the minimum yearly level of support under the Investment for jobs and growth goal will correspond to 60% of their former indicative average annual allocation under the Investment for jobs and growth goal, calculated by the Commission within the multiannual financial framework 2014-2020.
15. No transition region shall receive less than what it would have received if it had been a more developed region.
- 15a. The minimum total allocation of a Member State for its transition regions, which were already transition regions in 2014-2020, shall correspond to a minimum of 65% of the total 2014-2020 allocation for these regions in that Member State.
- 15b. Notwithstanding paragraphs 10 to 13, additional allocations as set out in paragraphs 16 to 20 shall apply.
16. A total of EUR 120 000 000 will be allocated for the PEACE PLUS programme where it is acting in support of peace and reconciliation and of the continuation of North-South cross border co-operation. In addition, at least EUR 60 000 000 shall be allocated for the PEACE PLUS programme from the allocation for Ireland under the European Territorial Cooperation goal (INTERREG).
17. Where the population of a Member State has declined, on average, by more than 1% per year, between the periods 2007-2009 and 2016-2018, that Member State shall receive an additional allocation equivalent to the total fall in its population between those two periods multiplied by EUR 500. Where applicable, that additional allocation shall be allocated to the less developed regions in the Member State concerned.
18. The less developed regions of the Member States which have only started receiving support from the Funds in the 2014-2020 programming period, will receive an additional allocation of EUR 400 000 000.
19. In order to recognise the challenges posed by the situation of island Member States and the remoteness of certain parts of the Union, Malta and Cyprus shall receive an additional allocation of EUR 100 000 000 each for the Structural Funds under the Investment for jobs and growth goal. The northern sparsely populated areas of Finland shall receive an additional allocation of EUR 100 000 000 to the amount referred to in paragraph 9.
20. In order to boost competitiveness, growth and job creation in certain Member States, the Funds will provide the following additional allocations under the Investment for jobs and growth goal:
 - a) EUR 200 000 000 for the transition regions in Belgium;
 - b) EUR 200 000 000 for the less developed regions in Bulgaria,

- c) EUR 1 550 000 000 for the Czechia under the Cohesion Fund;
 - d) EUR 100 000 000 for Cyprus under the Structural Funds;
 - e) EUR 50 000 000 for Estonia under the Structural Funds;
 - f) EUR 650 000 000 for the transition regions of Germany affected by paragraph 15a;
 - g) EUR 50 000 000 for Malta under the Structural Funds;
 - h) EUR 600 000 000 for the less developed regions in Poland;
 - i) EUR 300 000 000 for the transition regions in Portugal;
 - j) EUR 350 000 000 for the more developed region of Slovenia.
-
